Red Rich Everbearing Strawberry

Plant Patent
No. 498

A sensational new everbearing Strawberry. Extra large, honey-sweet and deep red clear through. Unsurpassed for freezing and holds shape after thawing. Heavy bearing—produced over 4,000 quarts to the acre last year. Disease resistant. Plants are strong growers and good plant makers. First crop ripens in early June. Second crop August, September and October. Supply is limited. Be the first to have this grand new berry in your garden.

NURSERIES, Inc.

DANVILLE, NEW YORK

TREE WISTERIA

No more lovely sight can be imagined than a Tree Wisteria in bloom. The purplish blue flowers completely cover the tree during May, transforming it into a sheer beauty. On the lawn they develop into beautiful specimens, increasing in beauty and dignity each successive season. Can be kept trimmed to a height of 6 to 8 feet.

**Grafted, Sure-to-Bloom, Balled in Peat,
3 to 4 ft. trees, \$4.95 each.**

*Enjoy the Grace and Color
of Beautiful Trees*

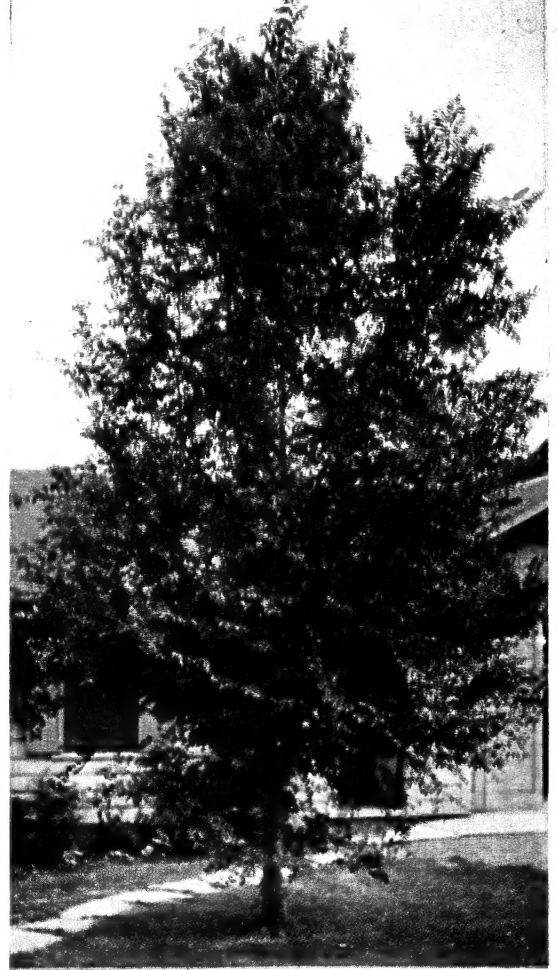

RED-FLOWERING CRAB

(*Malus Floribunda*)

This small tree is round-topped with single, carmine buds that change to pink and then white. Very heavy bloomer with small blood-red fruits, which can be used for jells. Will stand severe winters and drought. 15 to 20 feet at maturity.

4 to 5 ft. trees, \$2.00 each.

CHINESE ELM

A very rapid grower, growing to a height of 30 to 40 ft. with small, dense foliage. Excellent for tall hedge or windbreak. Makes remarkable shade in five short years. A wide spreading tree with slender limbs and drooping twigs.

6 to 8 ft. trees, \$2.50 each.

WISCONSIN WEeping WILLOW

There are few trees that can be used to such advantage for cheery winter effects. Grows fast, adapted to a variety of soils and uses. Is very hardy, and beautifully effective near pools, along drives and on lawns. Grows 25 to 30 feet tall.

A personal message from William F. Kelly, Jr.

We take pleasure in sending you our 1951 catalog.

We especially want to thank our thousands of customers in all parts of the country who so loyally order from us year after year. Over half of our new orders each year are from people who have been referred to us by our satisfied customers.

A special invitation is extended to those of you who have our catalog for the first time, to place your order with us. Once you have purchased from us, we know you will be a Kelly booster.

Seventy-one years of growing experience are back of all the trees and plants that we sell. Under ideal climatic conditions, with modern equipment and experienced employees, we have under cultivation over three hundred acres of nursery stock. You can be sure that nursery stock grown in Dansville is healthy and hardy.

We ask that you place your order early. Very often we are sold out of many varieties later in the season, and we do not want to disappoint you.

Much success and happiness is wished you with your plantings this spring, and we hope that we may have a part in increasing the beauty and value of your property.

William F. Kelly, Jr.

Our Guarantee

- 1 WE GUARANTEE** delivery to customers in first-class condition of all nursery stock. If through delay or mishandling in transit, all is not in first-class condition on arrival, notify us immediately and we will make prompt, satisfactory adjustment, with a replacement or prompt refund of your remittance.
- 2 WE GUARANTEE** to deliver well grown trees and plants, which if properly handled and planted, will grow. However, if, due to unfavorable weather, such as drought, excess rainfall, or other conditions over which we have no control, they fail to grow, we will replace at half price, the following season—you to notify us not later than July 15th.
- 3 WE GUARANTEE** our nursery stock to be true-to-name. We strive to avoid mistakes, but should any stock prove untrue to name as sold, we agree to replace such stock or refund purchase price.

Please Read! BEFORE ORDERING YOUR SELECTIONS

1. Order now for shipment at planting time.
2. Unless you specify a specific date, we will ship at the proper planting time in your section.
3. An envelope on which we pay postage is enclosed for your convenience.
4. For ordering, please use order blanks enclosed. Letters should be written separately to avoid confusion and mistakes, and to insure prompt reply.
5. Our terms are NET CASH with order. Unless otherwise specified, prices are f.o.b. Dansville.

RIPENING DATES

With our descriptions of varieties, we've indicated the approximate ripening date at which fruit is ripe and ready to eat in Western New York. This date will vary with the season and in different sections of the East. The fruit may ripen a few days to a week earlier or later.

HOW TO REMIT

Send Money Order or Check with your order. You save money by sending remittance with order. The Post Office and Express Company make extra charges for C.O.D. shipments. 25% deposit is required on all C.O.D. orders.

QUANTITY RATES

Take advantage of our lower rates for quantity purchases. For less than 10 trees remit at each rate; 10 to 15 trees of one sort such as Apples, varieties alike or assorted, entitles you to the 10 rate. An order for 50 or more trees of one sort, varieties alike or assorted, entitles you to the low 100 rate.

OUR REFERENCES

As to our responsibility and reliability, we refer you to the Merchants and Farmers National Bank, Dansville, N. Y.; Groveland State Bank, Groveland, N. Y.; Security Trust Co., Dansville, N. Y.; to any person whose letter appears in this catalog, or to your State Experiment Station or College.

FREE PLANTING GUIDE

With every order we will send absolutely free a book which, by word and picture, shows just how to plant a tree or shrub.

RA.PID.GRO

Try It Once—You'll Never Use Anything Else!

WHAT IS RA-PID-GRO?

Ra-Pid-Gro is a complete, concentrated plant food. It is made into an immediately available, effective liquid plant fertilizer by simply adding water. It speeds up growth of plants now in place, and assures more successful transplanting of new plants.

HOW IS IT USED?

Just add water at the rate of 1 lb. of Ra-Pid-Gro to 22 gallons of water. It is ready to use as soon as the Ra-Pid-Gro dissolves. Apply around each plant according to directions on the package. For a small number of plants mix at the rate of 1 teaspoonful to a quart of water.

The Miracle Plant Food

1 pound of Ra-Pid-Gro added to 22 gals. of water gives you a complete, quickly available, easily prepared plant food.

Analysis
23 % Nitrogen
21 % Phosphate
17 % Potash

WHAT WILL IT DO?

Ra-Pid-Gro works almost unbelievable miracles in promoting rapid and healthy growth on all types of plants. Use it on lawns, around shade trees, evergreens, shrubs, roses, perennials, vegetables and house plants. All the vital plant food elements are present in this remarkable discovery and, since it is applied in liquid form, are readily available to the roots of the plant.

Rotterdam, C., Westersingel,
Holland
 Gentlemen: Oct. 12, 1950
 In March of this year you shipped to my address at the request of Mr. J. A. Diemand, Jr., Philadelphia, 6 apple trees and 3 Boysenberry plants. As you may be wondering how, after their transatlantic flight, these trees are doing in Dutch soil, I thought you might be interested in the enclosed snapshots. Those taken in August indicate the remarkable growth after planting. Next to the favorable conditions of climate and soil, these good results are certainly due to your excellent planting material and most efficient method of packing.
 Yours truly,
 W. Suermondt, Wzn.

Door
for Only \$7.75**

Kelly's Dwarf Fruit Trees are Extra Special!

Take little space to produce Big Delicious Fruit

DWARF APPLES

All Kelly's Dwarf Apple trees are propagated by placing the variety on a special type of Malling Rootstocks, which were developed in England and which are imported from that country. These trees at maturity will reach a height of 12 to 15 ft. tall and they can be planted 15 to 20 ft. apart in your home orchard. Besides being a beautiful addition to the landscaping of your home they develop crops of fruit each year. You will have much enjoyment standing on the ground picking fresh luscious fruit from these small trees within 2 years after you plant them.

VARIETIES

Cortland, Double Red Delicious, Northern Spy, Red McIntosh, R. I. Greening, and Yellow Delicious.

McIntosh Dwarf Apple

Fruit the
second year
after
planting

DWARF PEARS

All Kelly's Dwarf Pear trees are budded on Quince roots. This is the only known way to horticulturists to successfully grow Dwarf Pear trees. We only list 4 varieties, Bartlett, Clapp's Favorite, Duchess and Seckel, which we have found to do best on this rootstock. Other varieties, such as Beurre Bosc, and Kieffer, do not make a good union. Most of the Dwarf Pear trees we are offering this year, have borne fruit in the nursery row. They will bear fruit after you have planted them at least the second year and bring many years of enjoyment and scores of successful crops as they develop into their full size.

Just the thing for Small Gardens

KELLY'S *Selected and Inspected* APPLES

Whether you have room for only a few trees in your back yard, or plan to plant a large orchard . . . you'll get best results with **Kelly's Apples**. We say this with confidence, because **our trees are grown under the most exacting conditions for your protection!** Starting with a whole root seedling our trees are propagated by the budding method . . . the best and most expensive way. Each year we go direct to commercial bearing orchards to cut our bud wood from trees that show best color and bearing qualities. This is what gives **Kelly's Trees** the good foundation that assures you of permanent, healthy growth, disease-free trees, and heavy crops year after year.

SUMMER APPLES

Months listed after description indicate the time at which the fruit is at its best for general use. Dates indicate time of ripening.

3
GOOD
APPLES

1 LODI. A new fruit that closely resembles one of its parents, Yellow Transparent, but the fruits are larger and ripen a little later. An annual bearer that is becoming a commercial variety. August 10-15.

2 MILTON. Bright pinkish red, large, flesh tender, very white with a refreshing aroma. An early and annual bearer. Excellent for home and roadside markets. September 15-20.

3 RED GRAVENSTEIN. New red sport, much more attractive than its parent. Differs from old Gravenstein, being solid dark red in color, is a better keeper and hangs better on the tree. September 10-15.

LODI. A new fruit that closely resembles one of its parents, Yellow Transparent, but the fruits are larger and ripen a little later. An annual bearer that is becoming a commercial variety. Tends to bear young. August 10-15.

RED ASTRACHAN. One of the best of the summer varieties, as it becomes fully ripe and ready for home use from late July to August. Fruit very handsome, large, round, nearly covered with deep crimson, overspread with thick bloom; juicy and good though rather acid. Tree medium size, yielding good crops. August 2-6.

RED DUCHESS. A solid red strain of the old Duchess of Oldenburg. One of the hardest varieties grown. Fruit is large, striped red in color. A good, early eating Apple. Vigorous grower. Regular and prolific bearer. Excellent for pies and sauces. August 5-10.

YELLOW TRANSPARENT. Fruit of good size; skin clear white turning to pale yellow; flavor acid and very good, making it excellent for cooking. Begins to ripen some time in July and continues for 3 or 4 weeks. Tree upright and a very early and abundant bearer. August 3-7.

FALL APPLES

Descriptions indicate approximate date at which fruit ripens in Western New York.

EARLY MCINTOSH. See page 7 for description and illustration.

WEALTHY. Beautiful, moderate sized, brilliant red Apple; fine quality. One of the best of its season. Is relatively a good keeper. Owing to hardness of tree, its adaptability to cold climates and early bearing habits can be profitably planted as a filler. September 15-20.

MASSACHUSETTS TRUENESS-TO-NAME INSPECTION SERVICE

A service to nurserymen and fruit growers to promote truthness to name of fruit varieties.

Sponsored by The Massachusetts Fruit Growers' Association

Statement of Inspection for Trueness-to-name

Amherst, Mass.

August 9, 1950

TO WHOM IT MAY CONCERN:

All of the apple, pear, plum, sweet cherry, and 2-year sour cherry varieties propagated and now growing in the nurseries of Kelly Brothers Nurseries, Inc., Dansville, New York have been examined by the Massachusetts Trueness-to-name Inspection Service. To the best of our knowledge, these trees are true to name as they now stand in the nursery row.

WINTER APPLES

Months listed after descriptions indicate the time at which the fruit is at its best for general use.

BALDWIN. Long a favorite with commercial orchardists. Yields large crops and is an excellent shipper. Highly regarded as an eating and cooking Apple, having a flavor all its own. Fruit is large, bright red, crisp, juicy and rich. December-March.

DOUBLE RED DELICIOUS. Very fine colored solid red strain of Delicious, resembling its parent in all characteristics except color. November-March.

Mr. Fruit Grower—Please write for prices on the following varieties which we have in limited quantities: Twenty Ounce, Fameuse (Snow Apple), Grimes Golden, Kendall, Fall Pippin, Melba, Red Stayman and Golden Russet.

DOLGO CRAB

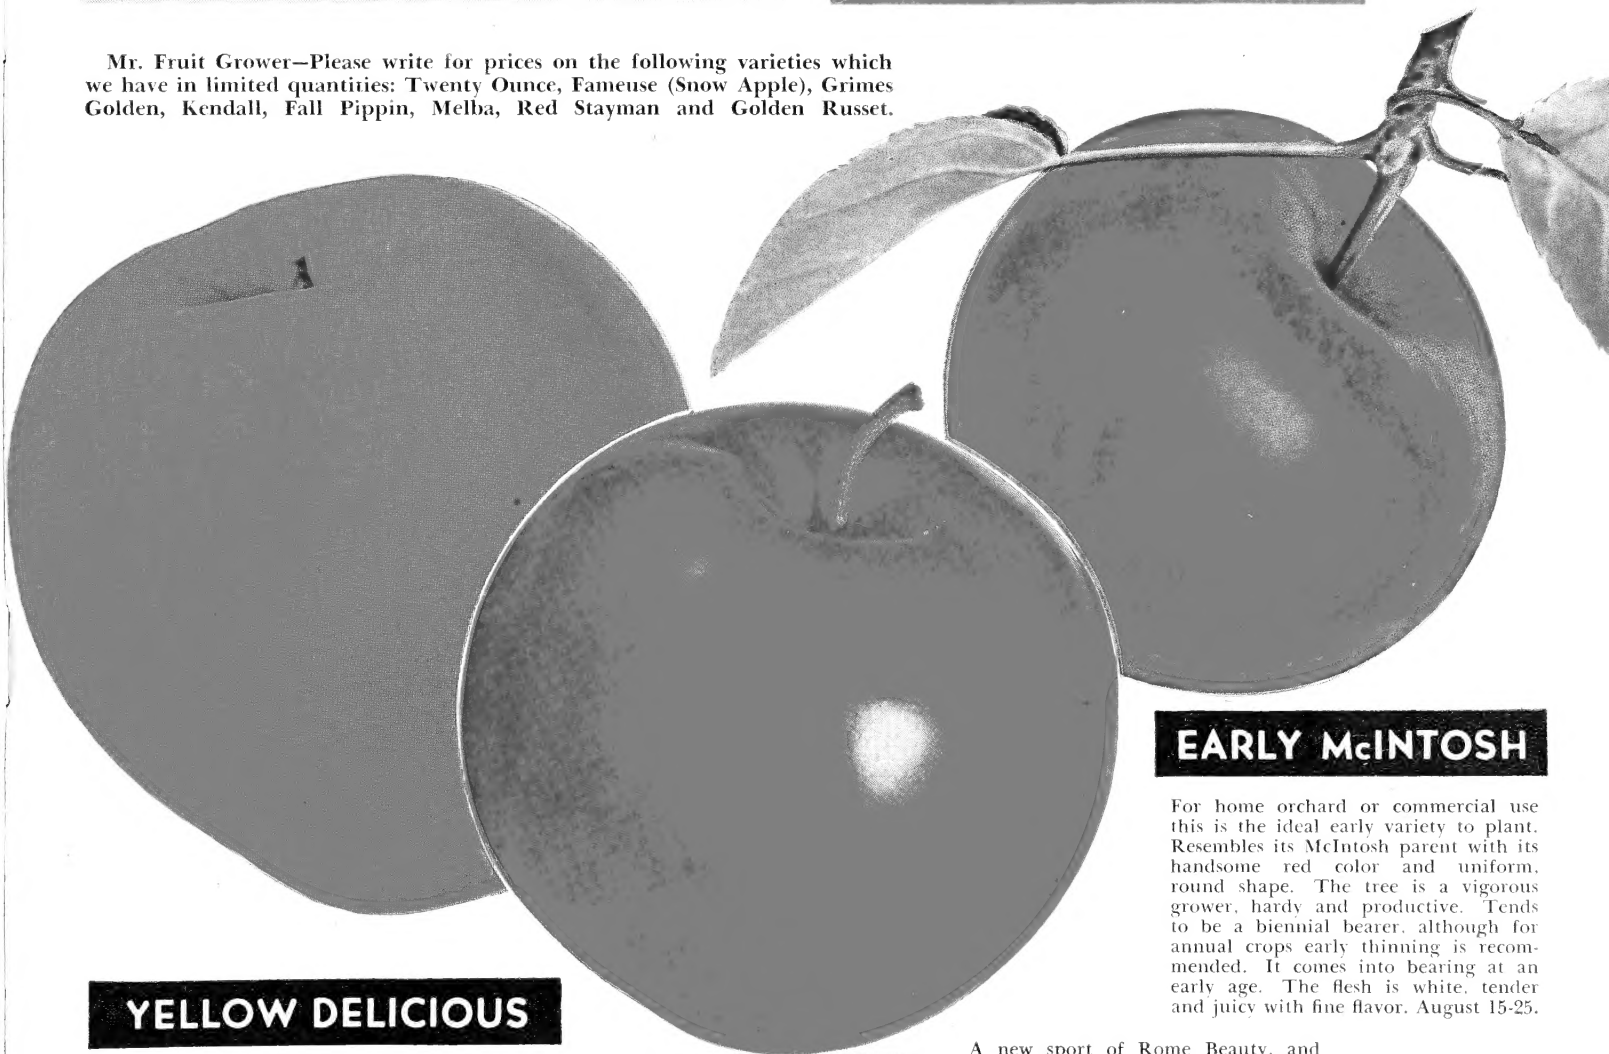

A handsome red Crab Apple. Vigorous and productive. Very juicy, jellies easily, and makes a rich, ruby-red jelly of beautiful color and excellent flavor. Makes exceptionally good cider. September 1-10.

HYSLOP

One of the best known and widely propagated varieties. Brilliant dark red, heavy cropper, very hardy and a good grower.

Prices same as Standard Apple Trees

YELLOW DELICIOUS

A bright, golden yellow Apple of excellent quality. Firm, crisp, and very juicy. Splendid keeper. Bears young and heavily. Many growers say this is the finest yellow Apple. October to April.

RED ROME

A new sport of Rome Beauty, and like Gallia Beauty is identical with its parent in all characteristics except fruit is a solid red color. December-May.

EARLY MCINTOSH

For home orchard or commercial use this is the ideal early variety to plant. Resembles its McIntosh parent with its handsome red color and uniform, round shape. The tree is a vigorous grower, hardy and productive. Tends to be a biennial bearer, although for annual crops early thinning is recommended. It comes into bearing at an early age. The flesh is white, tender and juicy with fine flavor. August 15-25.

KELLY'S *Apple Trees* Have the Extra Hardiness

WINTER APPLES—Continued

JONATHAN. A very beautiful Apple, of a brilliant red color, highly flavored and of excellent quality for dessert or culinary use. Tree generally bears early, productive and long lived. November-April.

MACOUN. A late McIntosh type Apple ripening about 10 days later than McIntosh. Dark red with whitish, close-grained flesh. Fine quality. A heavy and regular bearer. Introduced and recommended by the New York State Experiment Station. November.

NORTHERN SPY. Easily ranks among the very best winter Apples. Fruit is large, very attractive, being of bright red color with a pronounced bloom. Flesh is juicy, crisp and excellent for dessert or culinary purposes. Brings high prices on the market. Keeps well in storage until April or later. November-April.

RED SPY. A new red sport identical with Northern Spy, except that the fruit is a solid bright red without either stripe or splashes. Much handsomer than its parent. An excellent commercial sort. Tree is hardy and productive. November-May.

For Prices See Page 7.

RHODE ISLAND GREENING. As a cooking Apple it is unsurpassed, and as a dessert fruit of its season, has few equals. It is a good keeper but keeps better if picked early. This Greening is a beautiful yellow color when ripe and an abundant yielder. Tree is long-lived and hardy. December-April.

ROME BEAUTY. Yellow and red striped Apple of excellent quality. Prolific annual bearer. Early bearer and good keeper. Profitable commercial sort for New York, Ohio, Pennsylvania, and West Virginia. December-May.

STAYMAN. Tree moderately vigorous. Comes into bearing young. A reliable cropper. Medium to large size fruit. Slightly striped, coloring to dull red. December-March.

TOLMAN SWEET. Fruit is generally esteemed for certain culinary purposes and baking. Yellow, tinged with red. Very sweet, hardy and productive. November-April.

YELLOW DELICIOUS. See illustration and description on page 7.

RED McINTOSH

(Solid Red Strain.) Without doubt the leading commercial variety of New York and the New England States. A very attractive red Apple of the highest quality. Hardy, bears young and annually. Flesh white, fine, very tender, juicy and refreshing, with attractive flavor. It is especially desirable for fancy trade. October-January.

CORTLAND

An Apple of the McIntosh type that combines the high quality and flavor of the McIntosh, and tendency to hang to the tree of the Ben Davis. An excellent variety to plant with McIntosh as a cross pollinator. The fruit of Cortland is as large or larger than that of McIntosh, round to somewhat conical in shape. In color it is a bright red, splashed and striped with carmine and overlaid with purplish bloom. October-February.

RED DELICIOUS

A large, dark red Apple, with crisp, fine grained flesh of excellent quality and flavor; a splendid keeper and shipper. Tree one of the hardiest. A regular annual bearer. Excellent for eating and the most popular fruitstand Apple. Packs well in boxes and bushels always bringing high prices on the leading markets. December-March.

Kelly's Famous ORANGE QUINCE

FOR DELICIOUS JELLY

Its pre-eminence as a fruit for jellies and preserves makes the Quince a profitable tree for the fruit grower, the farmer or any one having a small garden. The Quince tree does not take much room on

account of its dwarfish character. It can be grown in bush or tree form. Fruit is large golden yellow and of excellent quality. Makes delicious jells. Ripens early in September. Grows 10 to 15 feet tall. Produces abundantly.

A NEW APPLE

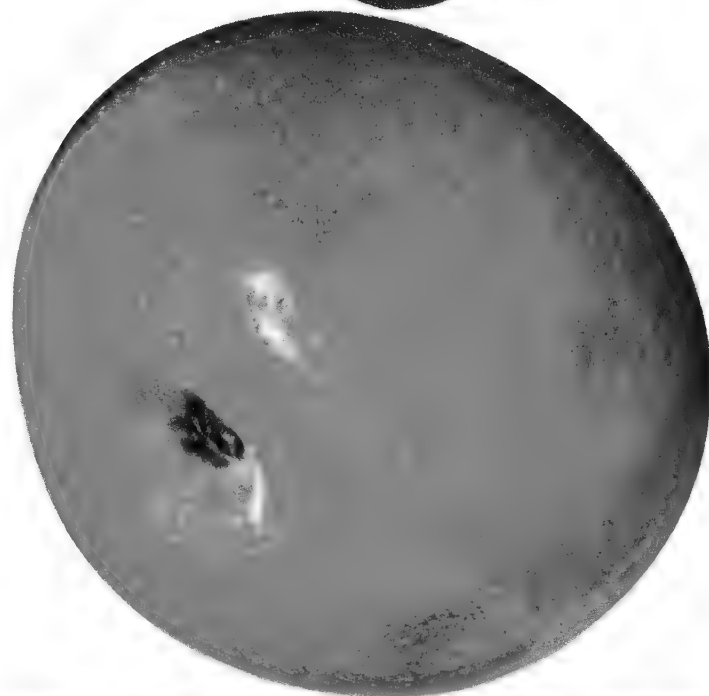

FOR KELLY CUSTOMERS

DAVEY (Plant Patent 906)

Here is a new Apple you cannot be without. A seedling of McIntosh developed in the orchard of S. L. Davenport, North Grafton, Massachusetts. It has been tested in all of the New England States and proven hardy. Comes into bearing at an early age, and tends to bear annually. Has been found to be much more resistant to scab and other diseases than is the McIntosh. Blossoms about the same time as McIntosh and matures with Baldwin. The flavor is unlike any other Apple, white flesh, the quality is superior to many of the popular varieties of the day. Texture resembles that of Wealthy, is much firmer, and a little coarser. Most attractive high color, with conspicuous dots. Has been found to be a good keeper and a variety that is easy to handle.

2-year, 4 to 6 ft. trees: \$2.50 each; 3 for \$6.50;
10 for \$19.95.

PEARS

BOSC - Quality Pear

A Pear which is rated by all as "very good" or "best." Has a long, tapering neck and a long stem which allows it to sway in heavy winds without dropping. Brownish yellow in color. Flesh is tender, buttery, very juicy, with a rich flavor and pleasing aroma. The tree is a slow grower, but most productive. Oct. to Jan. (Sept. 25-30.)

Pollination—

Two varieties are needed. The only combination that is cross-incompatible is Seckel and Bartlett. A third variety is needed with the above two.

CLAPP'S FAVORITE

Precedes Bartlett, which it resembles in size, shape, color and flavor. It is the first Pear on the market. Large, pale lemon-yellow fruit with brown dots. Fine texture, juicy, buttery, with a rich, sweet, delicate vinous flavor. Tree hardy and productive. Thrives where other varieties fail. August 15-20.

SECKEL

The Pear to plant for eating fresh and pickling. Medium size, skin rich yellowish brown with deep, brownish red cheek when fully ripe. Flesh very fine grained, juicy, sweet and good. Trees resistant to blight, very productive and hardy. Should be planted in fertile soils, not heavy clay. September and October. (September 20-25.)

4 Select, 4-5 Ft. Trees,
A \$6.80 Value—You Save \$1.30.

Home Grown Pears are *Extra Juicy - Extra Rich*

ANJOU

This is one of the best late fall and early winter varieties for the market, its season lasting until way into January, even in common storage. Large fruit, green in color, but turning to yellow when ripe, dotted with russet. The yellowish white flesh is firm, but tender, very juicy, sweet, spicy, with a rich, vinous flavor. Trees hardy and vigorous growers, come into bearing early. October to January. (September 25.)

DUCHESSE D'ANGOULEME

The fruits excite admiration and wonder by their enormous size. Always known by this characteristic. All dull, greenish yellow spotted russet. Trees are vigorous, hardy and healthy. Is a particularly desirable sort for the Pear fancier. November to December. (September 25-30.)

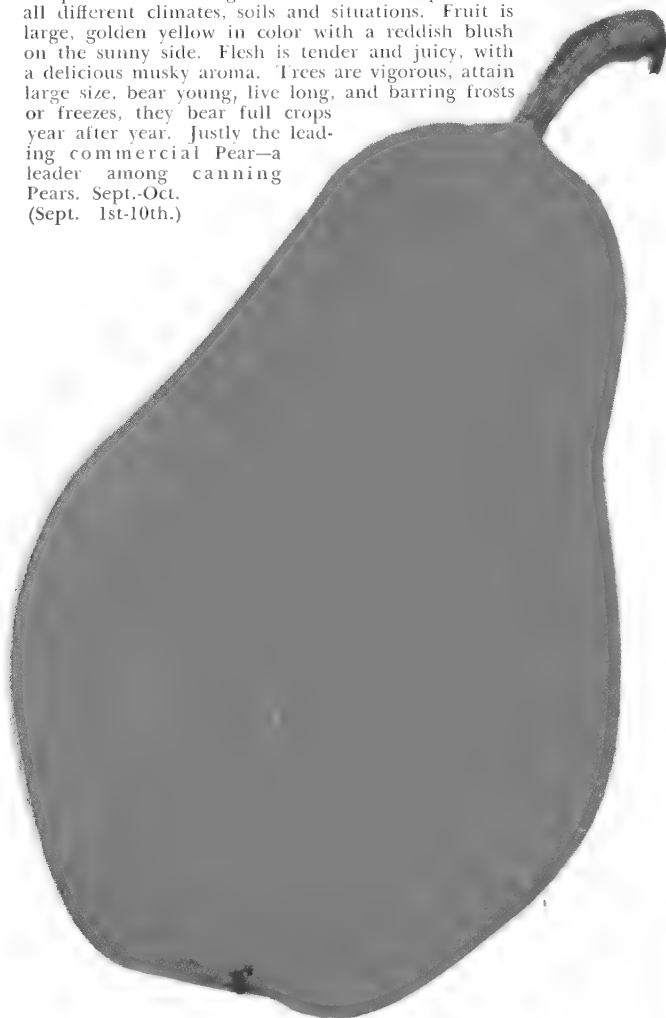

GORHAM

A seedling of Bartlett and closely resembles its parent in all characteristics and ripens from 3 weeks to a month later. It rivals Bartlett in all good qualities, being as large and handsome and as good or better to eat or to can. Fine canner—introduced by the New York State Experiment Station. (September 10-25.)

*Kelly's
Famous*

BARTLETT

There's hardly a person that doesn't know the Bartlett Pear and its qualities, as it is grown in, and is adaptable to all different climates, soils and situations. Fruit is large, golden yellow in color with a reddish blush on the sunny side. Flesh is tender and juicy, with a delicious musky aroma. Trees are vigorous, attain large size, bear young, live long, and barring frosts or freezes, they bear full crops year after year. Justly the leading commercial Pear—a leader among canning Pears. Sept.-Oct. (Sept. 1st-10th.)

KIEFFER

Large fruit, rich yellow in color, with red cheek. Very juicy. Good for canning, which brings out its flavor. Trees vigorous, fruitful, and are least susceptible to blight. November to February. (October 1-10.)

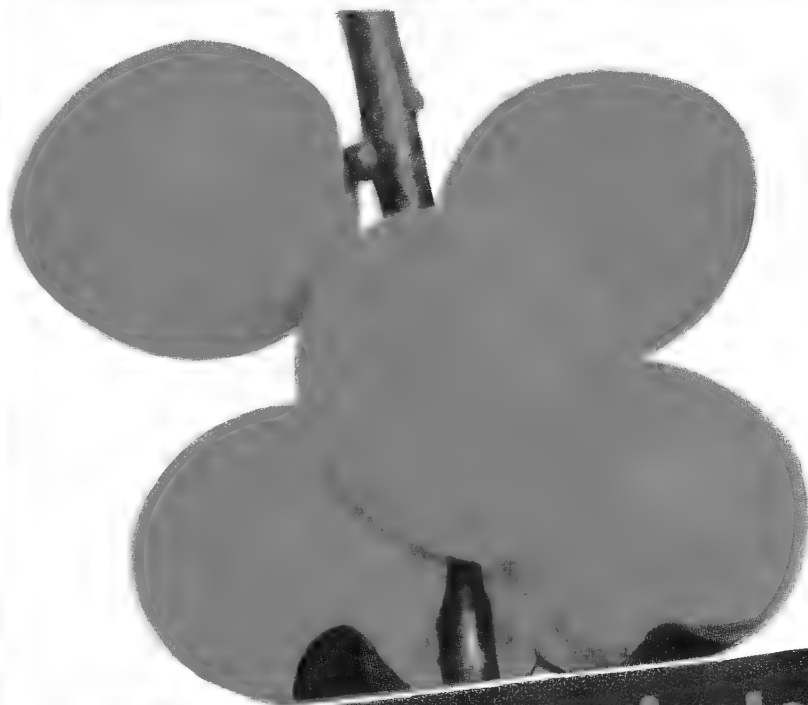

SHELDON

The fruits please both the eye and palate. It is distinctive in its russeted skin with a ruddy cheek. Flesh is juicy and deserves to be called luscious. Flavor is sweet, vinous and highly perfumed. Keeps well and ships well. Trees are vigorous and hardy. October. (September 20.)

TYSON

The Home Orchardist's First Choice

The quality of this old favorite is far superior to that of commonly grown Pears. The tree is a thrifty grower and very hardy—fruit is medium size, juicy with a spicy, scented sweetness that gives the fruit the charm of individuality. (Ripens late in August.)

GOLD-TONED Apricots

SO DELICIOUS FOR
JAMS AND SAUCES

Moorpark

You'll like this attractive variety. High quality and fine flavor. Fruit is large, deep yellow, with a red cheek. Grows to about the same size as a Peach tree. Ripens mid-August.

Early Golden

A new freestone variety which possesses a fine flavor. Skin is smooth, fuzzless and pale orange in color; medium to large in size; makes an excellent variety to plant with Moorpark.

Plant 2 Varieties for Pollination.

The NEW Fowler

This new Peach was first developed by Mr. George R. Fowler of Marlboro, N. Y., several years ago. Awarded Patent No. 567 in 1943. It is a large, yellow Peach of the Elberta type, very hardy. Tree of vigorous growth and exceptionally disease-resistant. Fruit matures a week later than Elberta, ripening evenly. Firm, thick-skinned and excellent shipper. Fine flavor and practically fuzzless. Thoroughly tested and sure to be a widely planted variety for both home orchard and commercial growing.

Kelly's Redhaven

A new, desirable, early Peach that has been thoroughly tested and found highly satisfactory. Introduced by the South Haven Experiment Station, it has the fine flavor of the South Haven and Hale-Haven. When other early Peaches are still green, this Peach is a bright red and ready to ship before it is fully ripe. A Peach to plant for real profit. Hardy. Freestone. Self-pollenizing and a prolific yielder. August 20-25.

PRICES OF FOWLER PEACH

Kelly Peaches-

*Nothing
Ripe.*

Kelly's Elberta

Leader of all Peaches and the greatest commercial variety on the market; 50% of the Peaches planted are Elberta. A beautiful Peach of good quality; not only the best orchard variety but also valuable for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. It is large, yellow with red cheek, juicy, high flavor. Flesh yellow; freestone. September 20-25.

Kelly's Golden Jubilee

The Sensational Peach. We recommend this New Jersey Experiment Station introduction. It's a real money maker. Quite hardy, resists excessive cold. Sure cropper, after severe winters and heavy frosts. **Golden Jubilee** is without equal as an early, large, yellow freestone of highest quality. Flesh is yellow, tender, juicy and sweet. August 20-25.

Kelly's Hale-Haven

A marvelous Peach, a result of crossing the famous J. H. Hale with South Haven. A large, beautifully colored, yellow-fleshed Peach. Ripens approximately 10 days to 2 weeks ahead of Elberta. Perfect freestone; strong grower. Good shipper, and a prolific, heavy bearer. The tree is hardy and fruit is of the highest quality. Should be included in every planting. September 1-5.

PRICES OF PEACH TREES

Growers interested in quantity lots are asked to please send us their list for special quantity prices.

Peaches can be grown on any soil that will produce the average yield of farm crops and are especially adapted to the lighter soils. If properly cared for the trees are sure to bring in a handsome return on your investment. Our trees are of the best quality and sure to grow.

Dates after each description indicate approximate ripening season in Western New York. Season varies in different sections of the East, but this will give you an approximate idea when to expect the fruit to be ripe.

BELLE OF GEORGIA. Large, attractive, white-fleshed Peach. Red cheek. Hardy and productive. Freestone. September 3-7.

CHAMPION. Large, creamy white, with red cheek. Excellent quality. Good shipper. Hardy and productive. Freestone. September 5-8.

EARLY ELBERTA. An excellent new variety, resembling Elberta very closely, except a little rounder in shape and about 10 days earlier in ripening. Freestone. September 6-10.

J. H. HALE. An extra large Peach, yellow overlaid with crimson. Flesh golden yellow, of delicious flavor. An excellent shipper. A fine commercial variety. Prolific when cross pollenized with some other variety. All of the varieties offered in this catalog are suitable for planting with Hale. Freestone. September 17-21.

ORIOLE. A new, early Peach of high quality. Fruit medium to large in size. Yellow-fleshed and freestone. Trees vigorous and productive. One of the hardiest varieties. August 15-20.

SOUTH HAVEN. Another excellent Peach, well worth planting. Golden yellow with red blush. Large, meaty and delicious flavor. Prolific. Freestone. August 25-September 1.

VALIANT. Large, yellow freestone. Juicy, very good quality. Excellent producer and fine canner. Quite hardy in bud. An introduction from Canada. August 28-September 5.

VEDETTE. Ripens a few days before Valiant and 3 weeks before Elberta. Fruit is large, roundish oval, yellow-fleshed, and a freestone. Superior quality and color. August 25-30.

VETERAN. Large, round, yellow-fleshed fruit. Freestone. Since it ripens a few days later than Valiant, it makes a desirable sort to follow that variety. Hardier in bud than most varieties. Ideal for cold sections. August 30-September 4.

Mr. Grower:

We also have the following varieties available: Early and Late Crawford, Sullivan Early Elberta, Marigold, Mikado, Rochester, and Goldeneast.

NEW PEACH VARIETIES

DIXI-GEM. (New U.S.D.A. Introduction.) Good quality. Yellow freestone. Ripens 6 days before Golden Jubilee.

DIXI-RED. (New U.S.D.A. Introduction.) Good quality. Yellow clingstone, ripening 2 weeks ahead of Golden Jubilee.

FAIRHAVEN. An outstanding new variety developed at the South Haven, Mich., Experiment Station. Cross between J. H. Hale and South Haven. Ripens a week ahead of Hale-Haven. Very hardy and prolific bearer. An excellent freestone Peach.

SUNHIGH. (New Jersey Introduction.) Good quality. Yellow flesh. Hardy. Ripens just ahead of Goldeneast.

SUMMERCREST. (New Jersey Introduction.) Yellow freestone. Ripens just before Elberta.

TRIOGEM. (New Jersey Introduction.) Yellow freestone. Ripens 2 to 3 days after Golden Jubilee.

POLLINATION: With the exception of **Mikado** and **J. H. Hale**, all the varieties we offer are self-fruitful.

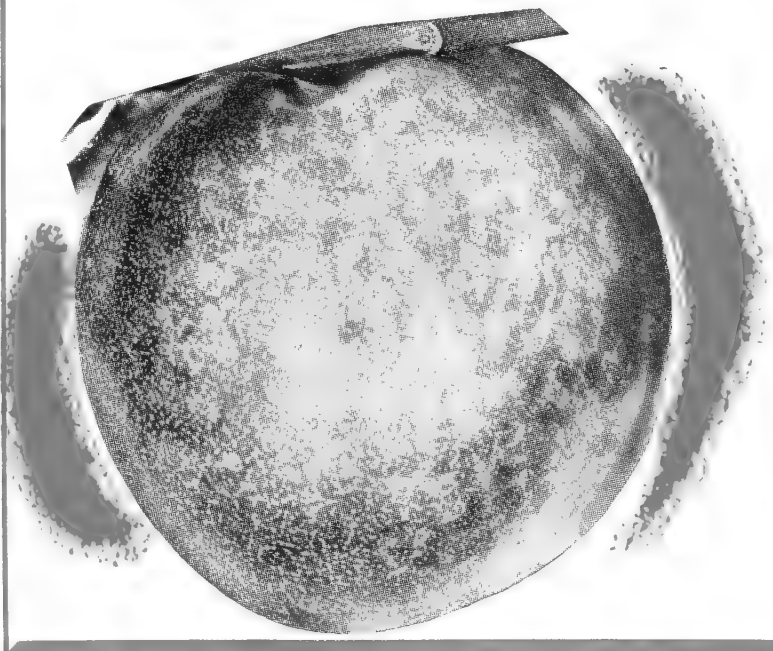

NECTARINES

SURE CROP

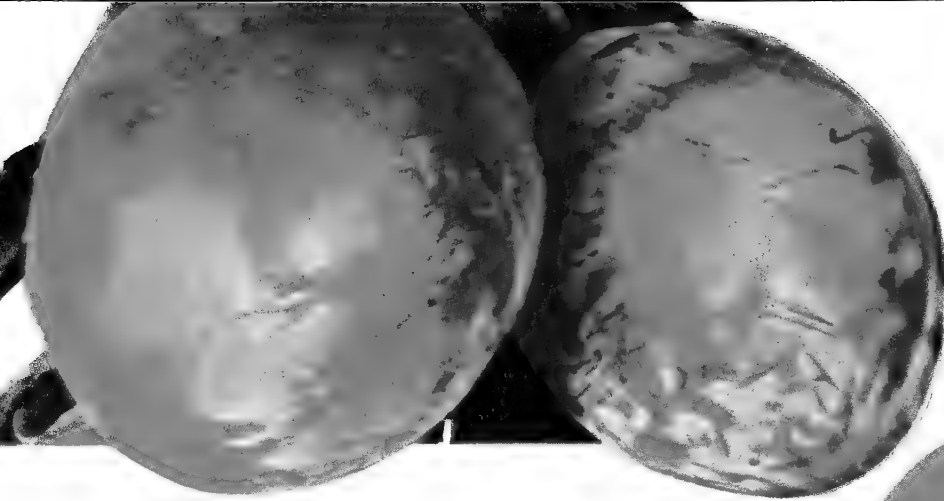

Imported from New Zealand by the U. S. Dept. of Agriculture, and so far, is the most promising Nectarine at the N. Y. Exp. Station. The tree is vigorous and productive. The fruits are large, roundish, white, and overlaid with very attractive

red. The flesh is firm, tender, free from the stone, and very pleasing in flavor.

	Each	3 for
2 to 3 ft.	\$1.45	\$3.60
3 to 4 ft.	1.70	4.20

Plant KELLY'S

ABUNDANCE PLUM

Trees are adaptable to wide range of soils and climates, and bear not only heavily but yearly. Fruit large, very early, amber turning to a rich, bright cherry. Flesh light yellow, very juicy and tender. Freestone. Good for canning. Should be picked when not quite ripe, as it keeps better and taste develops better. August 15-20.

REINE CLAUDE or BAVAY'S GREEN GAGE

This variety is unsurpassed for gratifying the taste, richness of flavor, abundance of juice and pleasant aroma. Has beautiful fruit, large, pale yellow, marked with red if the crop is thinned and sufficiently exposed to the sun. Trees attain only moderate size in the orchard, are productive and bear regularly. Deserves a place in the home orchard. Sept. 25-30.

DAMSON

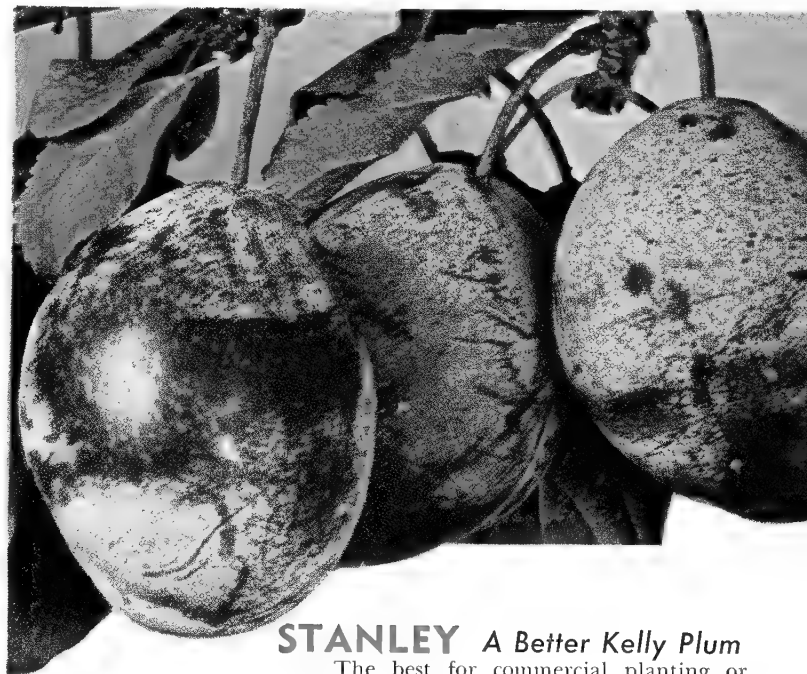

Fruit is medium size, dark purple, produced in thick clusters. Good to eat out of hand when fully ripe or after a light frost. One of the best of its kind for culinary purposes. Tree a good grower and very productive. September 24-28.

SHIRO

A Golden Yellow Winner

A very early Plum. Beautiful golden yellow variety. Tree is low growing, hardy, very prolific. The fruit is thin skinned, pleasant to eat, juicy, separates easily from the pit. Excellent for cooking, canning and dessert use. People who like plums, should be sure to plant this variety. Ripens Aug. 8-15.

STANLEY A Better Kelly Plum

The best for commercial planting or home use. Bears fruit in 3 years and ripens 10 days earlier than other varieties. Exceptionally productive. Fruit large, deep bluish purple, firm and sweet; of excellent flavor. Introduced by the New York State Experiment Station, and is becoming a valuable commercial variety. Bears annually. Midseason. Sept. 20-25. Same price as other Prune trees.

BURBANK

Ripens a week or more later than Abundance. Fruit very large, bright reddish purple. Meaty and quite firm. Should be picked before entirely ripe. Best colored fruit attained when thinned on the trees. Trees are low growing, flat-topped with somewhat drooping branches. Productive and vigorous. Good shipper. Needs close pruning. August 25-30.

Growers interested in quantity lots, are asked to please send us their list for special quantity prices.				

BRADSHAW. A very large and fine early Plum. Attractive, dark violet skin with yellow flesh. Very juicy; excellent for dessert use and for canning. The tree is hardy, and a vigorous grower. Especially desirable because of its ability to produce heavy crops of delicious fruit annually. Bradshaw is recommended for the home orchard as well as for the commercial grower. September 5-10.

FELLEMBERG PRUNE. Also known as **Italian.** Widely known and valuable Plum for dessert, but most esteemed for market and drying for preserving. Fruit is long, oval, purple with a thick bloom. Flesh firm, sweet and pleasant, separating freely from stone. Moderate growth. A great favorite and there is always a good market for them at profitable prices. September 24-26.

FORMOSA is a Japanese Plum recommended for its large, attractive fruits. The Plums are oval to slightly cordate, greenish yellow nearly overlaid with red, flesh firm, juicy, melting, pale yellow, sweet and good, stone slightly clinging, ripens in midseason.

GERMAN PRUNE. One of the oldest Prunes under cultivation and widely known for its culinary purposes, especially for canning. Fruit long, oval, purple with thick bloom; flesh firm, sweet and delicious. Excellent commercial sort. Freestone. September 18-22.

LOMBARD. This variety is well known by all. Medium to large, roundish, dark red. Flesh yellow and juicy. Very attractive. Very good canned, preserved or spiced. Ripens early. Is used in canneries and planted in home orchards where a hardy variety is needed. Trees medium size; very hardy; prolific bearers. September 18-22.

MONARCH. Large fruit with a rich, purple color. Juicy, golden green flesh. A good variety for market. Bears early and abundantly. September 18-22.

SANTA ROSA. A very promising Oriental variety. Fruit is handsome, dark, reddish purple. Large with very juicy, red flesh of good quality. Tree is large, vigorous and moderately productive. August 20-26.

POLLINATION

With the exception of the Prunes, Fellemborg, German, Stanley, etc., which are self-fruitleful, Plums should be interplanted to insure a set of fruit—European varieties for pollinating that class and Oriental sorts for those varieties.

Abundance, Burbank, Santa Rosa, and Formosa are Oriental varieties, balance are European varieties.

How to Figure Number of Plants Needed per Acre

To figure the number of plants needed per acre, multiply the spacing together and divide into 43,560, the number of square feet per acre.

Example: Apples planted 35x35. These two distances multiplied together is 1225, which divided into 43,560 equals 35, the number of Apple trees that can be planted to the acre.

LOOK AT THESE STRONG-ROOTED CHERRY TREES. WM. KELLY, JR., says: "You will go a long way to match such fine specimens."

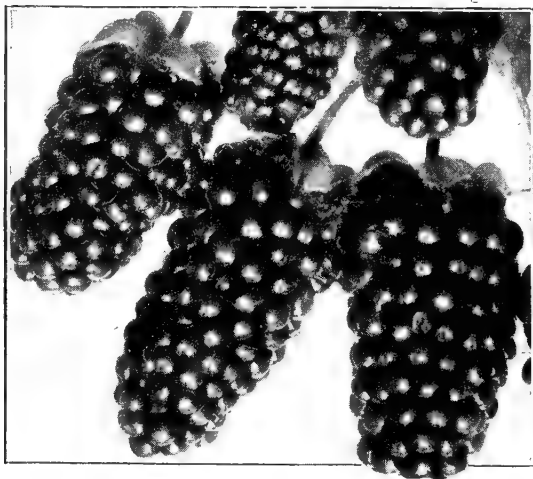

A Fine Block of Cherry Trees with John Kelly in the Foreground

Kelly's Heavy Bearing Bush Berries Make the Best Pies, Desserts and Sauces

Lucretia Dewberries

Of the Blackberry type, but produced on a trailing vine instead of an upright bush. The fruit is earlier, larger, attractive black, firm, and of excellent quality. Plants are disease resistant. **1-yr., No. 1 plants, 6 for \$1.20; 10 for \$1.50; 25 for \$2.75.**

Thornless Boysenberries

Giant Size—Delicious Flavor

Canes smooth as velvet. Ripens 10 days to 2 weeks earlier than the common Boysenberry. The thornless strain retains all the good characteristics of its parent, including its rugged, thrifty growth. You will enjoy picking these large, juicy berries without a chance of scratching your hands.

3 LAWN TREES

That Supply "EATS" as well as Beauty

Kelly's BLACK WALNUT

This tree does well in fertile, well drained soil. Very hardy. Grows most anywhere in the country. Produces annually large crops of nuts containing rich, oily kernels of fine flavor. Useful in making dessert, nut breads and confections. Tree grows 40 to 60 feet high; is a fast grower, and is long lived.

3 to 4 ft., \$2.00 each; 4 to 5 ft., \$2.50 each

**SPECIAL SEEDLING TREES
2 to 3 ft.—10 for only \$2.50**

(Sold only in multiples of ten.)

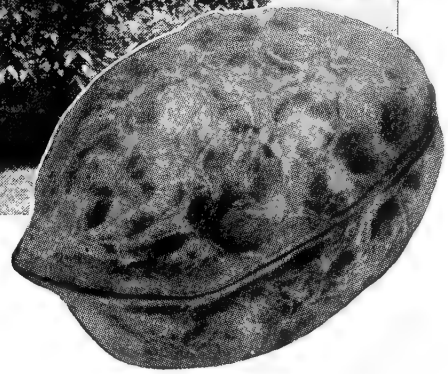

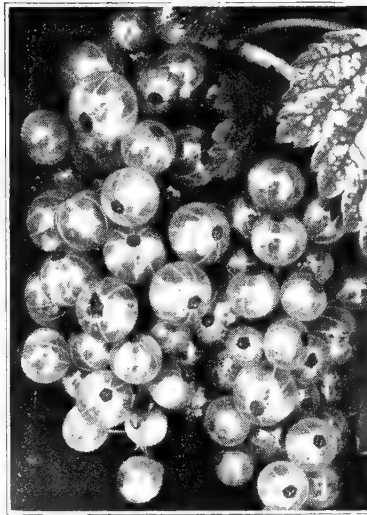

Gooseberries

Strong Grower . . . Delicious Fruit

DOWNING. A medium size, whitish green Gooseberry of good quality. Strong, upright grower and quite prolific; midseason. July 10 to 15.

POORMAN. Largest fruit of any of the American Gooseberries. Attractive red color. Prefers a heavy type of soil. Bush very vigorous. Highest quality of any Gooseberry.

Prices of Gooseberries: Select Bushes
90c each; 2 for \$1.75.

Currants

For Delicious Jellies

RED LAKE. The new, giant red Currant. A pleasure to pick. Berries are large, dark red in color, and on long, well filled branches. Very hardy. Ripens over a long season. Long stems make picking easy. **Select, No. 1 plants, 70c each; 3 for \$1.80; 10 for \$5.50; 25 for \$13.25.**

WILDER. Unsurpassed commercial sort. Bunches and berries very large, bright, attractive red, of excellent quality. Hang on bushes well. Productive. **Strong, 2-yr. bushes, 65c each; 3 for \$1.65; 10 for \$4.95; 25 for \$12.75.**

(We will be glad to quote on larger quantities.)

• **Important:** When ordering Gooseberry or Currant plants, it is necessary to have the following information:

1. County and Township where planting is to be made.
2. Approximate distance from nearest stand of White Pine (Five-Needled Pine.)

If you do not receive the Currants or Gooseberries with your order, you will know we are holding them for the permit. If the permit is not granted, refund will be made.

CULTIVATED *Adams Elderberry* For Wines and Jellies

The large berries and extra large fruit clusters of this new improved variety are far superior to common varieties. Grows 5 to 6 feet tall. Popular for pies and home-made wines. Beautiful as an ornamental plant.

3-4 ft. Plants, 90c Each; 3 for \$2.50

For commercial planting, write for prices.

BUTTERNUT

A fast growing tree that produces within 2 or 3 years after planting. Nuts are large, with sweet, oily, nutritious kernels. Wonderful for nut cookies and cakes.

CHAMPION SPRAYER TOPS IN AN ALL-PURPOSE, ALL-BRASS, KNAPSACK TYPE

This all-purpose, portable sprayer is tops in its field. Many thousands are in daily satisfactory use throughout the world.

The Champion Model No. 1 All-Brass Sprayer is an outstanding value because in one unit it combines unusual power, simple operation, effective control, continuous agitation and long life. It is a quality sprayer through and through—guaranteed against defective materials for one year. 5-gal. capacity.

**\$29.50
Postpaid**

FEATURES SPELL VALUE

- Synthetic Hycar piston withstands any liquid, even sulphuric acid.
- Nozzle fully adjustable for any need—45-degree elbow makes it easy to spray "over" or "underneath."
- Straps quickly adjusted for carrying on back.
- All-Brass construction—non-corroding.
- Cylinder made of heavy spun, seamless brass tubing.
- Non-clogging because liquid is filtered twice and kept well agitated by brass agitator.

The "ALL PURPOSE" HOE

A "Must" For Every Gardener

The goose-necked shank permits close cultivation of small plants. Weighs only 1½ lbs. but the "All Purpose" Hoe is stronger than most other hoes. Women find that they can use the "All Purpose" Hoe without fatigue. The "All Purpose" Hoe will weed and mulch between plants and in corners that no other hoe can reach. It will dig Dandelions, Plantain and weeds from your lawn without disfiguring it. Blade is the finest oil-tempered spring steel and has 7 inches of cutting surface. Hardwood handle is 44 inches long, finished in natural color. Shank and blade are bronze welded.

Protect Your Garden With the Best Spray Material

Kelly's FRUIT TREE SPRAY or DUST

Makes it possible to control insects and fungus diseases with a single material. Contains 62% Superfine Sulphur, 7½% DDT and 14% basic Arsenate of Lead. May be used as a dust or as a spray using 6 level tablespoonfuls to each gallon of water. It is unexcelled for control of chewing insects and fungus diseases that attack fruit trees. For insects such as aphids and red mite add two teaspoonfuls D-X Insect Spray per gallon of spray. Can be used on all fruit trees.

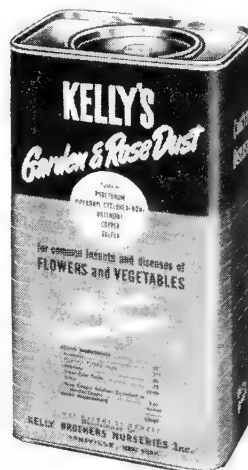

3-lb. Bags, \$2.00, POSTPAID
6 lbs., \$3.50, POSTPAID

Kelly's GARDEN AND ROSE DUST

A dust that controls all insects and fungus diseases of Roses, flowers and vegetables in your home garden. Contains a combination of piperonyl cyclonene, pyrethrum and rotenone for insects; sulphur and copper for fungus diseases. Apply once a week on all common vegetables and flowers. Dust lightly, regularly and thoroughly. Controls sucking and chewing insects, anthracnose, powdery mildew, leaf spot, downy mildew, early blight, late blight, black spot, fruit spot and leaf mold.

2 lb. Cans, \$2.00 POSTPAID.
4 lbs., \$3.50 POSTPAID.

D-X INSECT SPRAY

A powerful insect spray that gives a more complete kill of sucking and chewing insects on fruits, flowers and vegetables. Contains pyrethrum, piperonyl cyclonene and rotenone. Non-poisonous to man or warm-blooded animals. Use 2 teaspoonfuls D-X Insect Spray per gal. water.

1-qt. can \$5.75 **1/2-pt. can \$2.25**

SCALECIDE

The complete dormant spray—the safest and most effective for controlling aphids, red mite and other over-wintering pests. Spray fruit trees, shade trees, shrubs and vines that drop foliage in winter with 1 part Scalecide to 15 parts water. For evergreens use 1 part Scalecide to 50 parts water.

1-gal. can \$3.50 **1-qt. can \$1.45**

PARA-SCALECIDE

A combination of Paradichlorobenzene and Scalecide, which makes a liquid application for peach borers that is safe and effective on both young and old trees. Dilute 1 part Para-Scalecide in 7 parts water, pour against the base of the tree and throw on a few shovel-fuls of earth.

1-gal. can \$3.50 **1-qt. can \$1.45**

ALUMINUM SULPHATE

(To Make The Soil Acid)

For Blueberries (see page 24) and Blue Hydrangea (see page 43).

Good-rite No-Nib'l (NO-NIBBLE)

RABBIT REPELLENT

A chemical dust mixture which comes in a handy six ounce container and may be applied directly from the container or used in a spray at the rate of four teaspoons to a pint of water. Is non-injurious to plants, birds, rabbits and other animals. A very effective taste repellent that will protect your vegetables and garden from these rodents.

6-oz. can, \$1.25, POSTPAID.

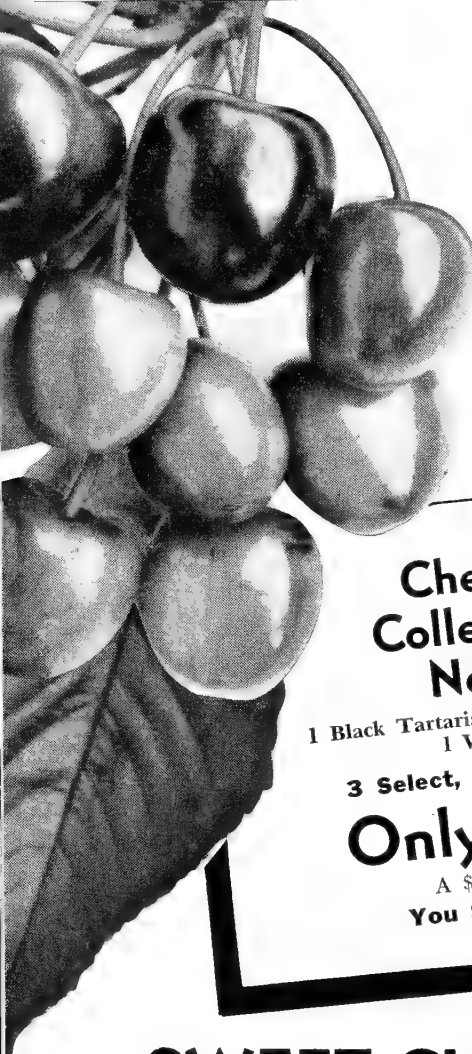

STOPS DEER-DAMAGE!

Good-rite Z.I.P. Deer Repellent

protects trees, shrubs, crops

Non-injurious to plants and browsing animals. Once deer nibble Z.I.P. sprayed growth, they find the spray so unpalatable they stop. Simply mix with water and apply as a spray. Resists washing off by snow and water. Two years of extensive research was made before this product was put on the market. A test was made on spraying every other row of dry beans. The deer would skip the sprayed row and eat just the rows that were not sprayed.

Growers interested in quantity lots are asked to please send us their list for special quantity prices.

Many people often ask which varieties we would suggest for planting. We highly recommend Windsor, Emperor Francis, Napoleon, and Schmidt's Bigarreau. Each one pollinates the other—any combination of two or more gives desired results.

BLACK GIANT

Was introduced by Luther Burbank in 1914. Tree is large, vigorous, very productive. Cherries are attractive in size and color; the crop is late, coming in season just before Lambert, which the black fruits resemble. Quality is excellent and less subject to cracking than Bing. One of Burbank's most notable productions.

EMPEROR FRANCIS

The Queen of All Sweet Cherries

Recognized as one of the newer leading sweet Cherries for home and commercial orchards. This high quality Cherry resembles Napoleon in size and color except that it becomes a little darker. Ripens around July 4th. Sold at same prices as regular varieties.

Pollination

Sweet Cherries are self-unfruitful, so must be interplanted. Where Napoleon, Bing and Lambert are to be planted together, another variety, such as Windsor or Black Tartarian must be added, as the first three will not pollinate each other. The Sour varieties are self-fruitful.

SOUR CHERRIES

Growers interested in quantity lots are asked to please send us their list for special quantity prices.

EARLY RICHMOND

Fruit small but good and the earliest of the sour. Unsurpassed for cooking purposes. This is the variety that yields such marvelous crops in the home gardens. Most hardy of all varieties. Uninjured by the coldest winters. Tree slender in growth, with a roundish, spreading habit. Ripens June 25-30.

ENGLISH MORELLO

Fruit is handsome in appearance, real tart. Is recognized as the standard late sour Cherry, taking the place of Montmorency after its season is over. Cooking gives the fruit a rich, dark wine color, very attractive in appearance and a pleasant, aromatic flavor. Tree is small, upright spreading with drooping branches. Ripens July 20-30.

MAZZARD ROOT TREES

If you wish trees on Mazzard roots, we can supply Montmorency and English Morello Sour Cherry, Napoleon, Windsor, Schmidt's Biggareau and Emperor Francis Sweet Cherry at 10c a tree over the prices listed on this page.

2 NOVELTIES

KELLY'S BEACH PLUM

(Prunus maritima)

Ideal as a shrub—also produces delicious fruits. Bears first or second year after planting. Grows 6 to 8 feet at maturity. Hardy; does well in poor soil. Beautiful white blooms late in the spring before the leaves appear. Purple fruit, ripe in September, makes excellent jelly. **Selected plants, \$1.25 each.**

HANSEN IMPROVED BUSH CHERRY

An ornamental shrub, producing fruit. Very easy to grow, highly productive and hardy. The fruit is large and black. Leaves silvery green, turning red in autumn. Attractive white blossoms add to landscape effect. Dwarf growing, 4 to 5 feet tall. Can be kept trimmed. Best to plant two or more bushes for better fruit production. **Price: 3-year-old, bearing size, 75c each; 2 for \$1.35.**

MONTMORENCY *America's Famous "SOUR"*

Always in demand by the home canner as well as the canning factories where they are canned by hundreds of tons. The trees are good bearers and the fruit ships well and appeals to the human eye for color as it is a bright clear red.

Is good sized and has a fine flavor. Can be eaten right off the tree and makes excellent pies and other desserts. A variety that is hard to beat from any angle. Ripens about July 15.

BLACK TARTARIAN

Well known and popular sweet Cherry; very large, bright purplish black, juicy, and has a rich flavor. Excellent for canning and a good shipper. Trees are remarkably vigorous and erect growers, produce immense crops. Ripening date June 20-July 4.

Cranford, N. J.
Oct. 7, 1950

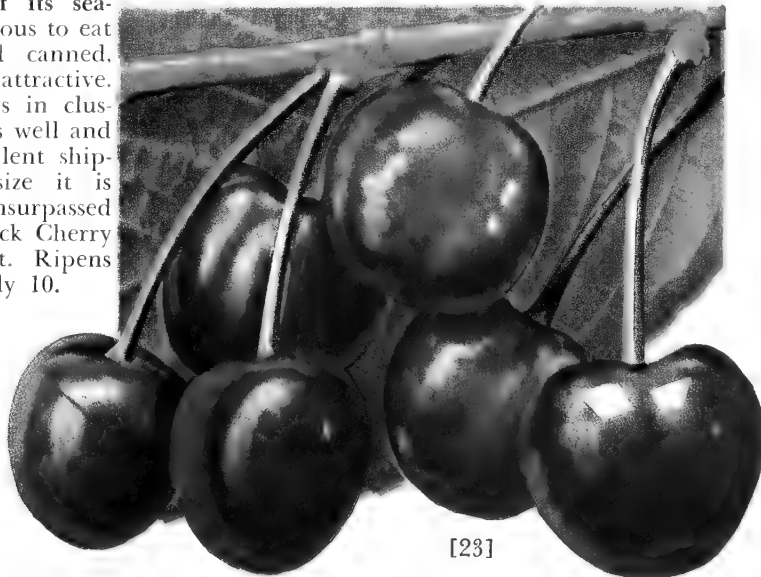

Gentlemen:

Last week I gave away my last Kelly Brothers fruit catalog and just now someone else saw our wonderful berry patch (big second crop now developing) and I promised to write and ask you to send him a catalog. The red Raspberries are our prize crop, but our grapes have done wonderfully well this season and two hundred bunches that I bagged were especially fine. Thank you so much for making our "small fruit" experiment a success.

Very truly yours,
Mrs. Maude L. Baillard

SCHMIDT'S BIGARREAU

A midseason black sweet Cherry. Considered one of the best large varieties of its season. Delicious to eat fresh and canned, and very attractive. Fruit grows in clusters. Keeps well and is an excellent shipper. In size it is usually unsurpassed by any black Cherry in the East. Ripens around July 10.

[23]

NAPOLEON

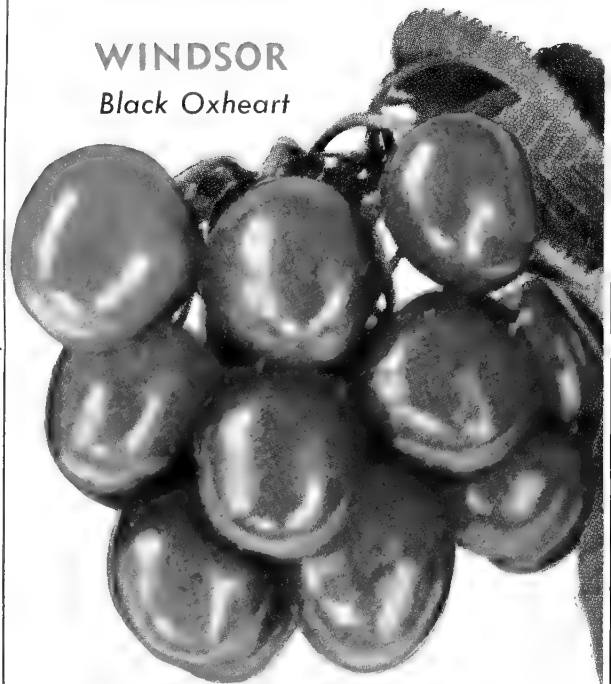

White Oxheart

This is a choice sweet, yellow Cherry of the highest quality, known as the White Oxheart. Good for market and canning. Pale yellow with attractive bright red cheek; flesh firm, flavor rich and sweet. Fruit keeps well so fruit dealers like it for the market. Trees productive and come into bearing early. Ripening date July 7-10.

2 yr., 5-6 ft. . . . \$2.35 each
2 yr., 4-5 ft. . . . 2.00 each

WINDSOR

Black Oxheart

One of the best quality dark Cherries, often referred to as Black Oxheart. Has pinkish flesh and almost black skin. Large, juicy and firm. Delicious to eat, fresh and wonderful for canning. Used extensively for fancy preserving. Tree grows upright and is a rapid and vigorous grower. A good commercial variety. Ripening date July 20-26.

Kelly's

GIANT HYBRID Blueberries

Make Most Delicious Pies

Enjoy luscious, juicy, giant Blueberries right from your own bushes. These mouth-watering beauties are as big as Grapes. Delicious for pies, easy to preserve, fine for freezing. Bushes are trim and very ornamental planted in borders or beds.

Complete planting and after care instructions sent with each order.

- ★ **CONCORD.** (Early to Midseason.) Excellent producer and prolific grower. Upright plant. Excellent flavor and size.
- ★ **JERSEY.** (Late.) Tall, well-shaped bush. Attractive appearance. An excellent producer. Large, good quality berry.
- ★ **RANCOCAS.** (Midseason.) Popular. Ripens about 2 weeks after Cabot. The bush is tall, vigorous and productive.
- ★ **STANLEY.** (Late.) Plants tall, vigorous, with large thick, shiny leaves and very productive. Fruit large, perfumed, and most delicious in flavor. Ripens late midseason.

ASPARAGUS

Has No Equal For Flavor

You'll be surprised how easy it is to grow Asparagus sufficient for a family of four or five. It is very healthful, rich in minerals and vitamins. Every garden should have some. Protect your family's health and enjoy this tender, delicious vegetable. Room required is very small. Complete planting and cultural directions sent free with each order.

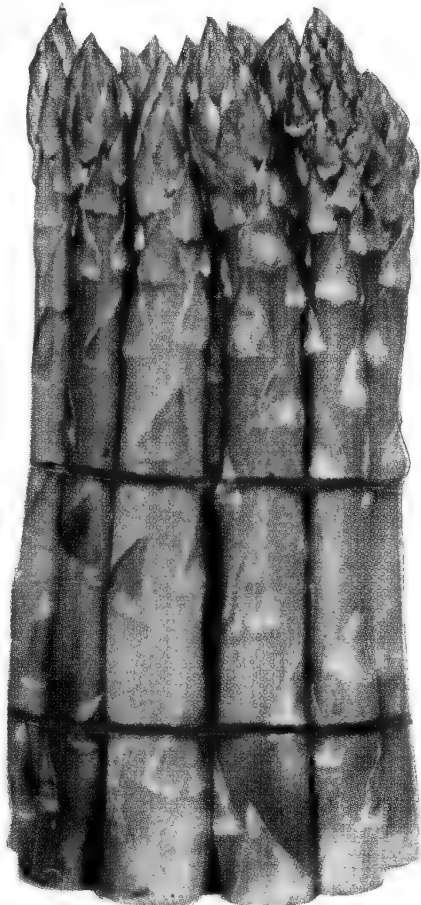

MARY WASHINGTON.

The Outstanding Variety. This is, without doubt, the best variety at this time. It is a very strong grower, stalk giant size, green color, rich and tender. In addition to being very productive it is rust-resistant and a bed will last for years.

RHUBARB—Choice

MacDONALD. New Red Rhubarb. Introduced by MacDonald College, Quebec, Canada. Considered the finest of all Rhubarb. A heavy producer. Giant size stalks, 18 to 24 inches long, 2 to 3 times larger than the common Rhubarb. Sweeter and more tender. Use it all spring and most of the summer. Its red skin and white flesh makes the finest looking and best tasting Rhubarb sauce and pie you ever ate. Practically seedless, grown only from divisions.

Each	\$0.75
3 for	2.00
10 for	6.00

RUBY RED. Another new red Rhubarb introduced from Canada. The stalks are intensely red, even the flesh is red. Rhubarb sauce made from Ruby Red is as red as Strawberry sauce. The skin is so tender it can be cooked with the stalk. Prolific yielder. The stalks are smaller than MacDonald.

HANSEN Bush Cherries

A Kelly Recommendation

An ornamental shrub, producing delicious fruit. Very easy to grow, highly productive and hardy. The fruit is large, black and wonderful to eat right from the bush. Leaves are silvery green, turning red in autumn. Attractive

white blossoms add to landscape effect. Dwarf growing, 4 to 5 feet tall. Can be kept trimmed. Best to plant two or more bushes for pollination. **75c each; 2 for \$1.35.**

NEW

Chinese Chestnut

HARDY, BLIGHT RESISTANT

These new blight resistant trees will bear nuts two years after planting. They are a fast growing tree and an ideal plant to take the place of the old-fashioned American Chestnut that we all remember from our childhood days. The fruit is fully as delicious as the native American Chestnut and slightly larger in size. **Best crops are insured by planting two or more trees for pollination.**

CACO (Red)

A new red Grape which is proving to be a great favorite. Berries very large and sweet. A dandy variety for the home vineyard or Grape trellis. Sept. 28-Oct. 3.

Dates Indicate
Approximate
Ripening Time in
New York State

GOLDEN MUSCAT

California Type Grape

Wonderful new golden yellow Grape. For home use and roadside market it is one of the best. Possesses rich golden color and fine Muscat aroma of European Muscat. Vine is vigorous, productive. The clusters are very large and compact. Berries are large, juicy, sweet and tender. October 5-10.

Selected, 2-Year Vines: \$1.00 each; 3 for \$2.75.

FREDONIA

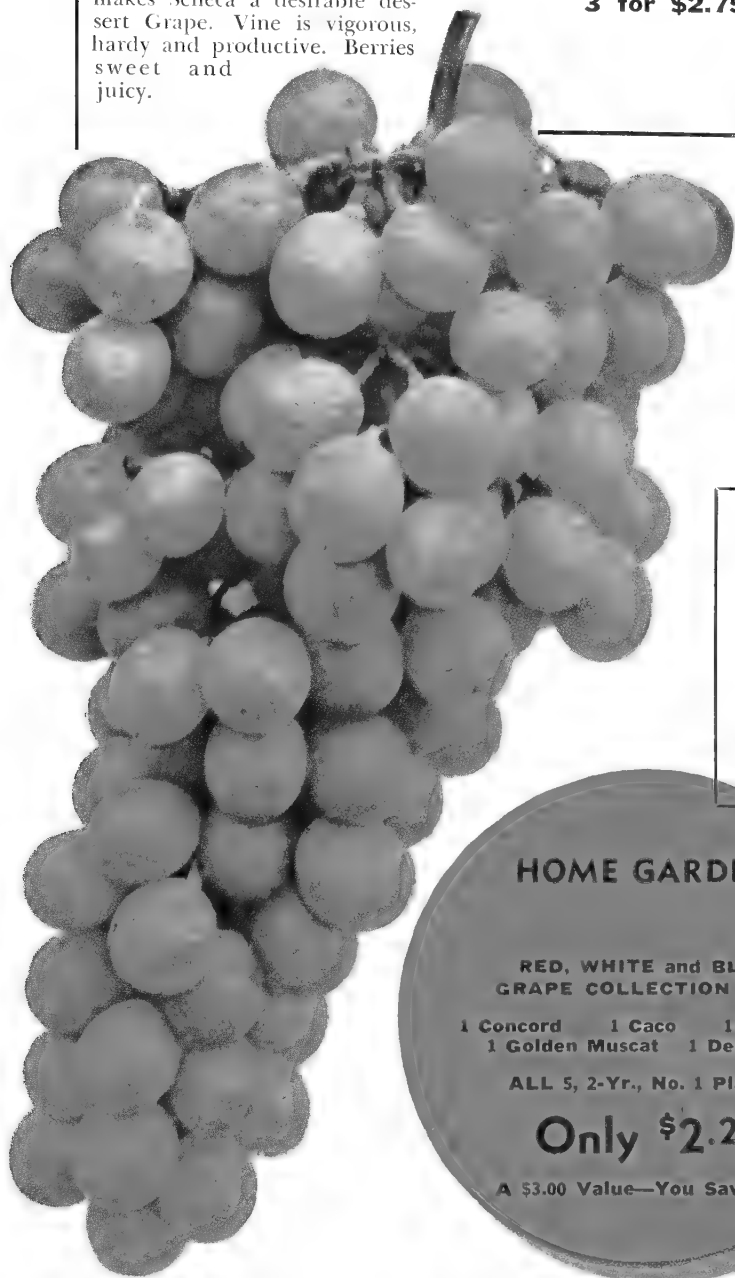

*A Fine
Sweet Grape*

The leading early black Grape. An introduction of the New York State Experiment Station. Plant is a strong, healthy grower. Clusters medium in size. Berries large and juicy. September 5-10.

SENECA

You will be amazed at the taste of this delicious California Vinifera Grape. Tender skin which can be eaten with the berry makes Seneca a desirable dessert Grape. Vine is vigorous, hardy and productive. Berries sweet and juicy.

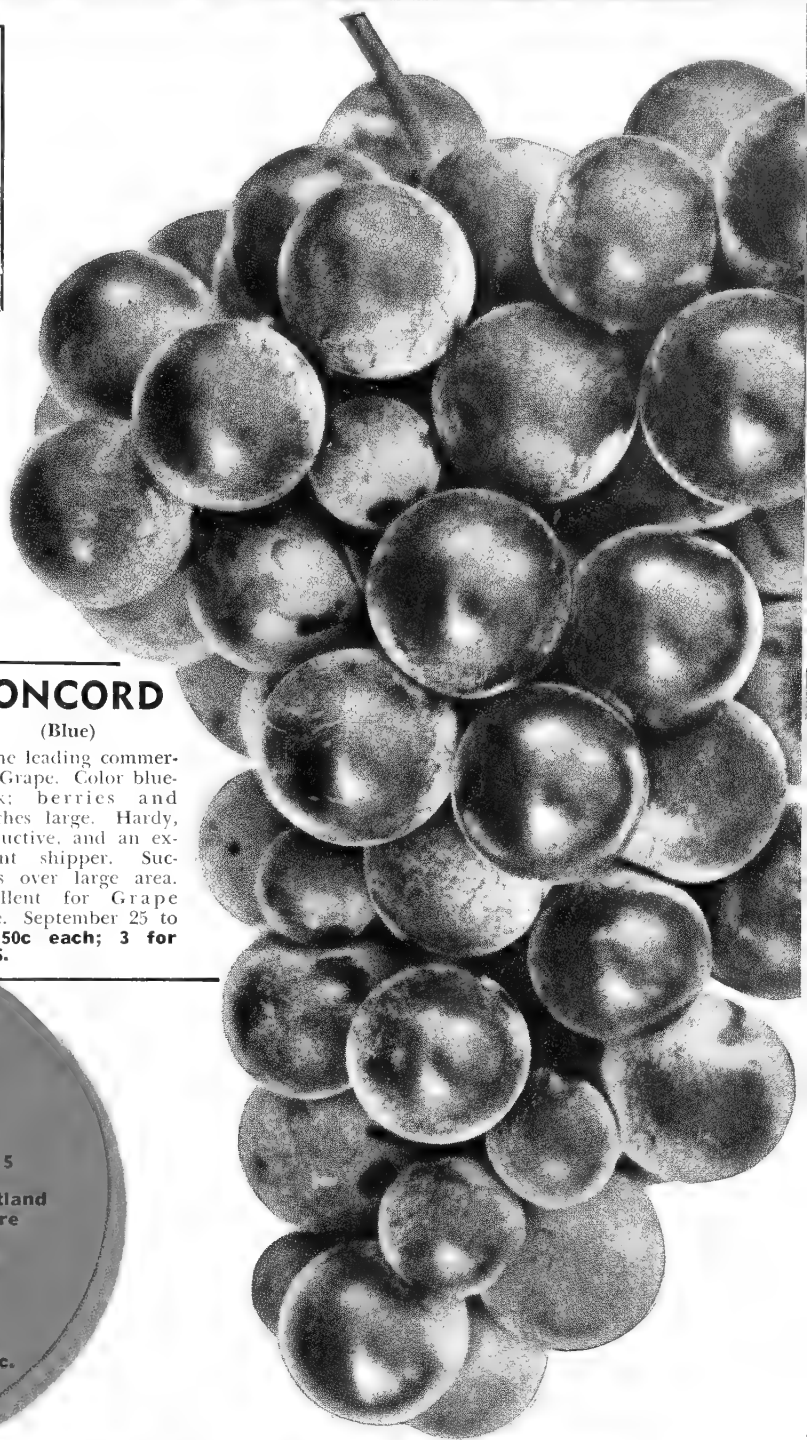

Select, 2-Year Plants:
\$1.00 each;
3 for \$2.75.

CONCORD

(Blue)

The leading commercial Grape. Color blue-black; berries and bunches large. Hardy, productive, and an excellent shipper. Succeeds over large area. Excellent for Grape juice. September 25 to 30. **50c each; 3 for \$1.35.**

THE OLD FAVORITES

DELAWARE (Red)

Bunches and berries small. Light red. Unusually sweet and delicious. One of the best red varieties. September 20.

50c each; 3 for \$1.35.

NIAGARA (White)

The most popular white Grape. Bunches and berries extra large. Vigorous, productive and a good keeper. September 25-30.

50c each; 3 for \$1.35.

PORTLAND (White)

Holds first place among Grapes as an early white variety. Vine is hardy, healthy and productive. Bunch and berries largest of all white Grapes. September 1-8.

50c each; 3 for \$1.35.

NEW EXTRA CHOICE GRAPES

BRONX SEEDLESS (Red)

This new red Grape is the best seedless variety available today. Clusters are large, very long, attractive. Berries large, entirely seedless, firm, crisp. May be eaten with skin as California Grapes. Excellent in quality. Vine vigorous, productive. Ripens September 20.

Selected Vines: 2-yr., \$1.25 each; 3 for \$3.25.

BUFFALO

New, early black Grape, ripening first week in September. Desirable for dessert and wine. Vine is a vigorous grower and very prolific. You'll like these sweet, juicy Grapes. Medium to large in size. Order a vine today. Supply limited.

Selected Vines: \$1.00 each; 3 for \$2.75.

VAN BUREN (Black)

Best new, early Grape. Desirable for home and commercial planting. Resembles Concord, but much sweeter and very juicy. Aug. 28-Sept. 2. We highly recommend this variety. Vine is heavy producer and vigorous in growth. **Selected, 2-yr. vines: \$1.00 each; 3 for \$2.85.**

Plant KELLY'S STRAWBERRY FOR HEAVY CROPS AND

Sparkle (Midseason-Late)

This variety originated at the New Jersey Station. It is claimed the best late variety that has been tested at the Geneva, N. Y. Experiment Station. This highest quality Strawberry ripens a week later than Premier. Recommended for freezing. The plants are vigorous and produce runners freely. Sparkle produces an excellent crop. Recommended for the New England States.

SUPERFECTION

NEW SENSATIONAL EVERBEARER

Will produce berries 90 days after planting. Berries round, of firm texture; dark red color all through. Will ship long distances without losing color or firmness. Bears an abundance of large berries from spring until frost. A hundred plants in your garden will produce enough berries for an average family. Good for the small gardener, as a commercial proposition, and can't be beat for its zippy, sweet flavor.

Gentlemen:

Williamsville, 21, N. Y.
May 31, 1950

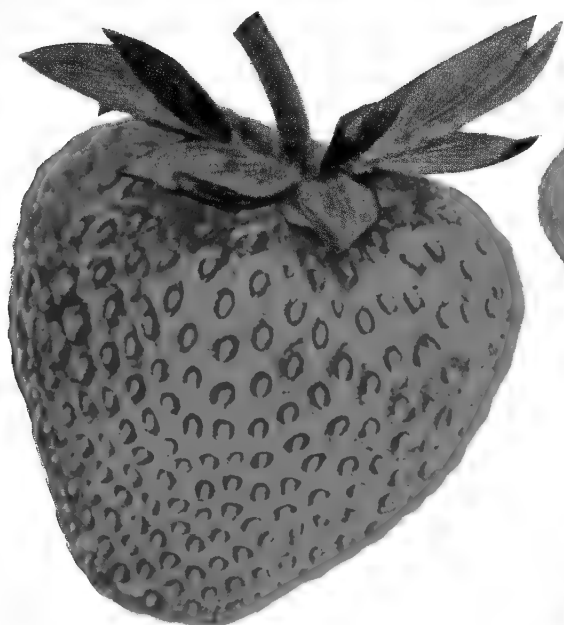

We wish to thank you for your speedy shipment of the Strawberry plants which we ordered on May 22, 1950. These plants arrived May 27, and were planted shortly after arrival and in observing the plants this morning we find that all plants are doing fine. Our complete satisfaction of the high quality of Kelly Nurseries prompts us to write this letter.

Cordially yours,
Frederick Naedele

BIG LUSCIOUS BERRIES

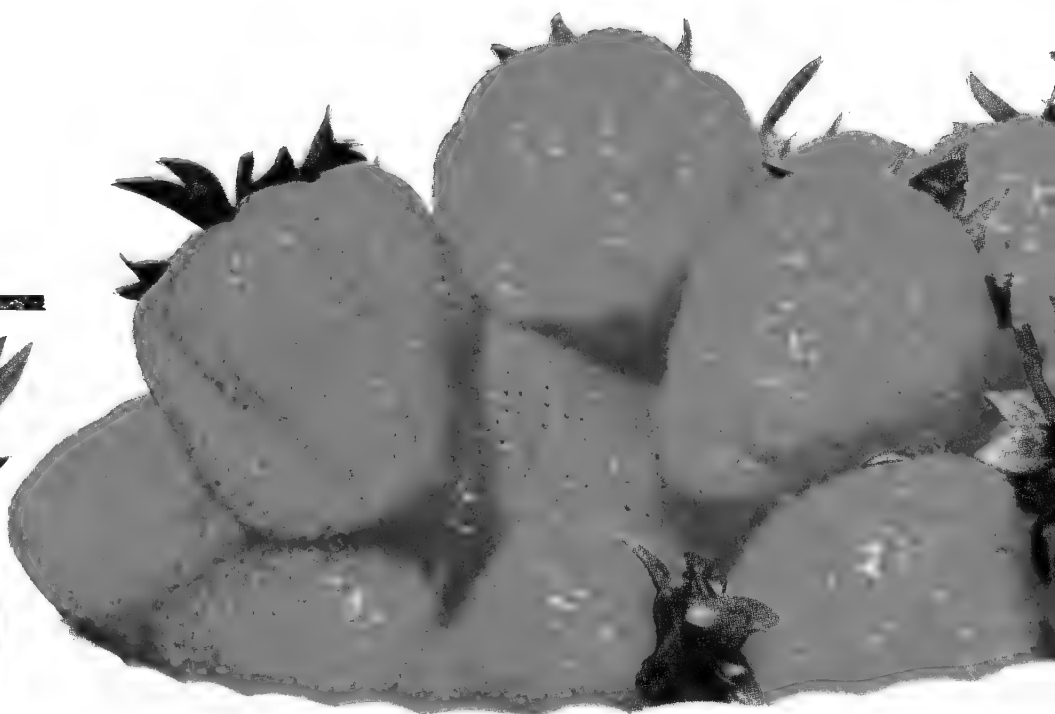

AND DELIGHTFUL EATING

PREMIER (Howard 17) (Early)

LATHAM- *A Great Commercial Berry*

10 CHOICE PLANTS, \$2.25

The leading Red Raspberry in all parts of the country. Latham is free from insects and diseases and multiplies rapidly. Berries are large, plump, juicy, free from seediness and full of delicious flavor. Very hardy; cold weather seems to have no effect on its bearing ability. Ripens July 1-10.

1-Year Selected Plants: 10 for \$2.25; 25 for \$4.10; 50 for \$7.10; 100 for \$12.25; 250 for \$26.00; 500 for \$43.00; 1000 for \$75.00.

The New MILTON

A late variety for market and home use. The berries are large, long conic, resembling those of the Taylor in size and shape. They are attractive, bright red, firm, not crumbling, mild sub-acid and good. It ripens 2 or 3 days later than Taylor and Latham. The plants are vigorous, productive and hardy. Milton has remained free from mosaic, in a test planting, in the Hudson Valley, where numerous other varieties soon become infected. This freedom from mosaic is an important reason why the seedling was named and introduced for more extensive testing by growers.

Cranford, N. J.
July 17, 1950.

Dear Sirs:

We are just finishing picking a large crop of wonderful fruit. Your Indian Summer Raspberry surpasses anything I have ever known, for size and flavor, and where I have made gifts of the berries, the comment is always the same "we have never tasted such delicious Raspberries." On my shelves are thirty pounds of perfect jam—equal pounds of fruit and sugar and cooked to the exact degree of perfection.

Cordially yours,
Mrs. Maude L. Baillard

Beauty and Grace

FOR YOUR LAWN

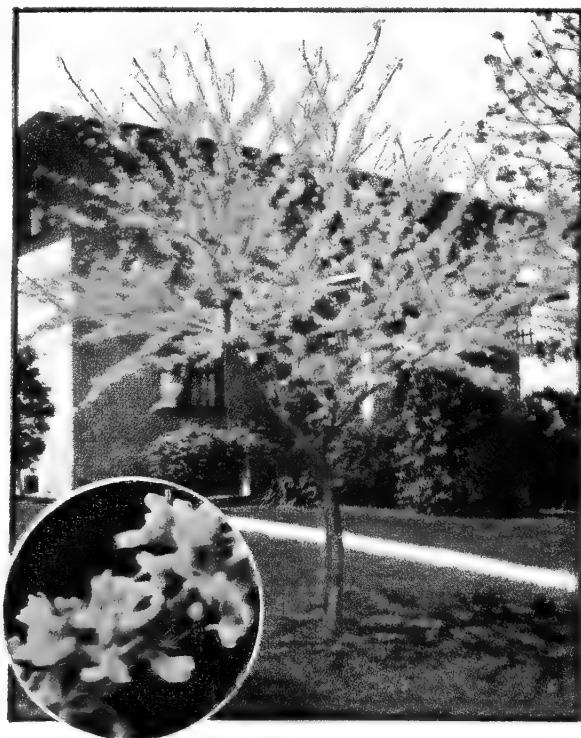

CRIMSON KING MAPLE

(Plant Patent No. 735)

You will want to be one of the first to own this new tree. It is a beautiful form of Schwedler Maple, originating in Europe. Like the Schwedler it develops a rounded, compact top of unusual symmetry, but differs in having foliage of deep, purple-crimson all through the growing months. Crimson King has been under close observation in this country for 10 years, and in every instance has kept its rich coloring throughout the season. It has been said: "Crimson King is beautiful beyond words." **4 to 5 ft., \$5.00.**

JUDAS or REDBUD TREE

Fable tells us that when Judas betrayed Christ this tree immediately dripped all over with drops of blood, and that is the way it looks today when its blooms first come out. Later they turn into beautiful rosy purple flowers. Blossoms in April, before the leaves appear. 15 to 20 feet at maturity height. **3 to 4 ft., \$1.75 each.**

MOUNTAIN ASH

(European)

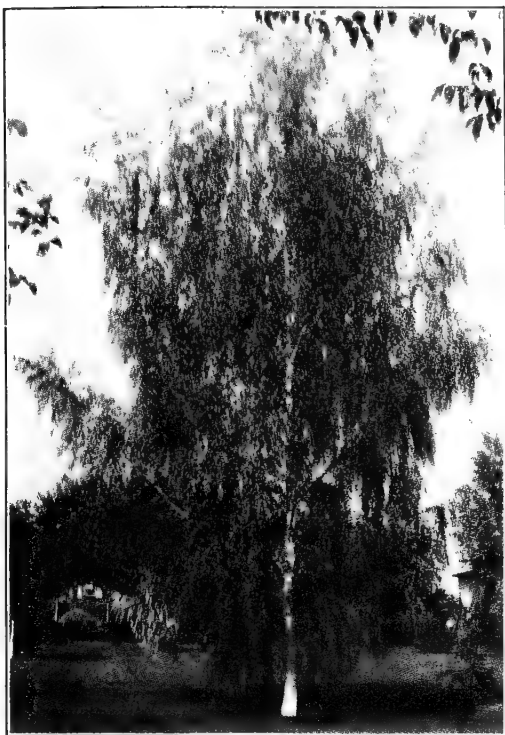

A most popular tree in America as it is in Europe, attaining a height of 18 to 25 feet. Is laden with drooping clusters of bright red berries against a background of soft green foliage. **5-6 ft., \$3.50 each.**

TREE HYDRANGEA

Large, pyramidal trusses of pure snow-white blossoms appear in early August. As fall approaches, they change to a luminous pink. At this stage they may be cut for all winter, dry bouquets. Blossoms measure a foot long and 6 to 8 inches wide. A low growing tree, standing not more than 4 to 6 feet in height. **3 to 4 ft., \$2.50 each.**

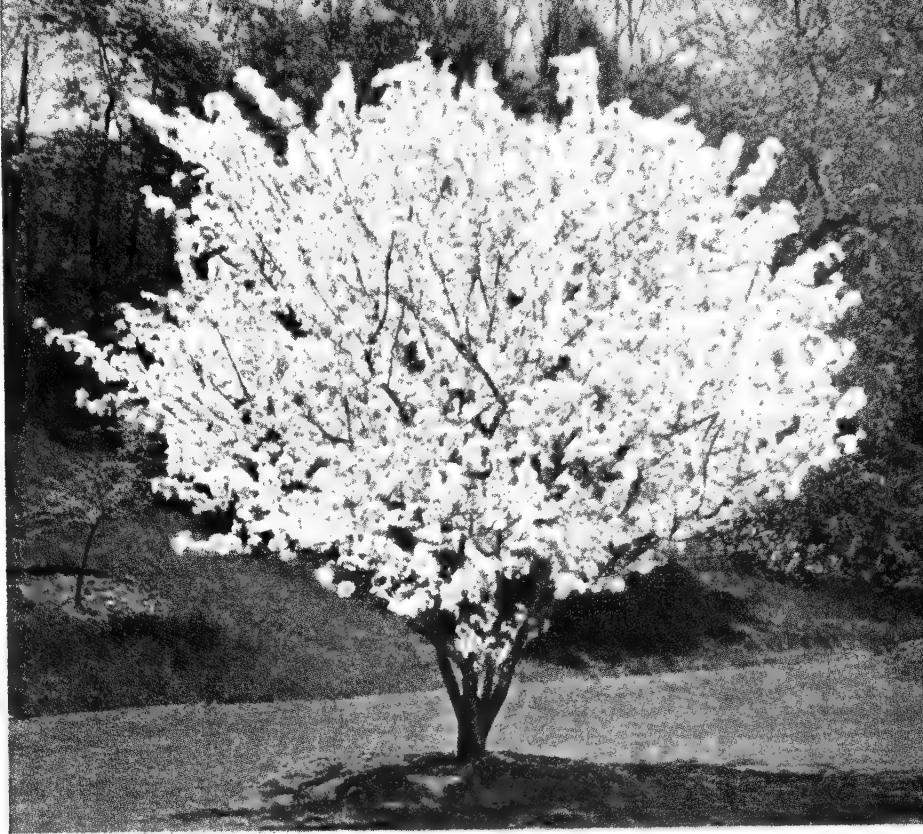

*Lovely Flowers
Bright Foliage!*

CUT LEAF WEeping BIRCH

You'll find grace, charm and beauty combined in this popular tree. Has silvery white bark, graceful, drooping branches, and small finely cut leaves. Sets off the compact lines of evergreens. Grows best in moist locations. **5 to 6 ft., \$3.50 each.**

Kelly's Famous White Flowering CRAB TREE

This is undoubtedly the most beautiful Flowering Crab that can be grown in the North successfully. It is an upright tree, entirely covered with beautiful white flowers which last a long time, followed by red-skinned fruit with white flesh throughout, and lingers until fall. The fruit is excellent for canning or jellies. Tree is very hardy and disease free. Outstanding sensation for single or group planting. **Price: 3-4 ft., \$1.75 each.**

RED JAPANESE MAPLE

Grows no taller than 8 to 10 feet. Leaves a startling crimson all summer. Makes an excellent specimen for side yard or in formal garden. Has best

color when in full sun, but will tolerate moderate shade. Trees moss balled. **1 to 1½ ft., \$4.25 each.**

PINK KWANZAN FLOWERING CHERRY TREE

A low growing (6 ft.), tree. It makes a striking appearance on the lawn because of its unique form, and is especially attractive when covered with showy clusters of dainty, rose-pink flowers before the leaves appear in the spring. **3 to 4 ft., \$2.75 each.**

CLUMP BIRCH

One of the most beautiful novelties in shade trees. When mature, the bark of the trees is white and the leaves are of a fine green. This rare picturesque clump combination will win the admiration of your friends and neighbors. **3 to 4 ft., \$2.50 each.**

Kelly's Ornamental

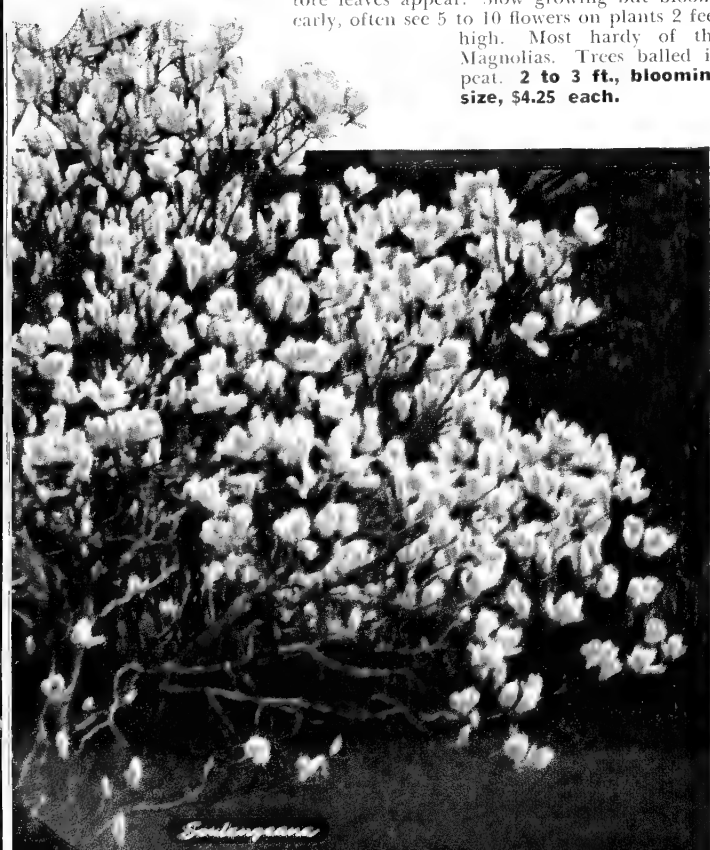

DOGWOODS—*Cornus Florida*
(White Flowering Dogwood)

A rare beauty in spring covered with white blossoms. Dark green foliage in summer changing to red in the fall. Beautiful lawn specimens. Trees balled in peat. **2 to 3 ft., \$2.25 each.**

CORNUS FLORIDA RUERA (Pink Flowering Dogwood). An outstanding ornamental tree. Showy, rose colored petals and deep red foliage in the fall. A combination of red flowering with the white flowering makes a beautiful grouping. Trees balled in peat. **2 to 3 ft., \$3.25 each.**

The Magnificent *Magnolias Soulangeana*

MAGNOLIA TREES (Saucer Magnolia). Mammoth rose colored blossoms, resembling a cup and saucer. Blooms early spring before leaves appear. Slow growing but blooms early, often see 5 to 10 flowers on plants 2 feet high. Most hardy of the *Magnolias*. Trees balled in peat. **2 to 3 ft., blooming size, \$4.25 each.**

BECHTEL'S CRAB

Double, rose-shaped pink blossoms, flowering early before it leaves out. Hardy, and is used extensively for specimen planting, reaching a maturity height from 8 to 10 ft. **2 to 3 ft., \$1.50 each. 3 to 4 ft., \$2.25 each.**

PRUNUS PISSARDI (*Purple Leaf Plum*)

Leaves are purple and more lasting than many purple-leaf plants. Grows approximately 10 feet high and gives excellent foliage contrast in a shrub border. **3 to 4 ft., \$1.50 each. 4 to 5 ft., \$2.00 each.**

and SHADE TREES

Grown in the fertile Genesee Valley section of New York State . . . the trees we offer here are **hardy**—upright growers with strong fibrous roots ready to take hold readily in a new location.

TULIP TREE

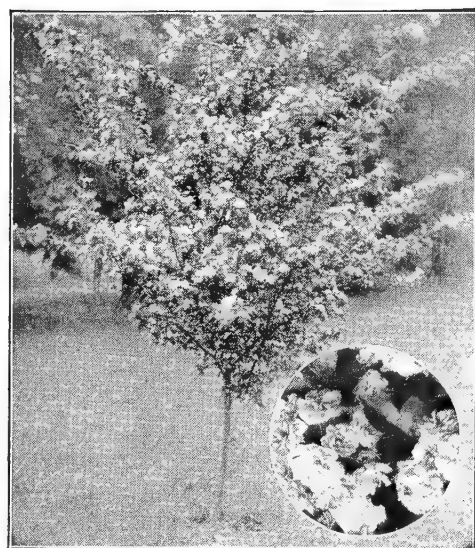

Lovely native tree. Tall growing, with stately habit. Large irregular leaves make it ideal for quick shade. Has numerous Tulip-like flowers in the spring, as tree matures. Blooms are yellow marked with orange. **Price: 5-6 ft., \$2.50 each; 6 to 8 ft., \$3.00 each.**

Skaneateles, N. Y.
Oct. 9, 1950

Gentlemen:

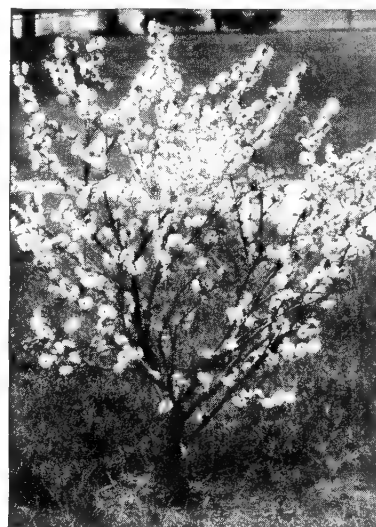

I moved to this part of New York State three years ago, built a new house and am developing a small place. Problems of drainage, soil, etc., have made slow going. Sent small orders to nearby nurseries to test handling of orders. Found that Kelly Brothers gave my small orders every care—shipped promptly on dates agreed upon, and sent me splendid stock. All of this has pleased me very much and I will make every effort to tell friends of your good service.

Very truly yours,
Mrs. Harold W. Slanson

Paul's Scarlet Hawthorn

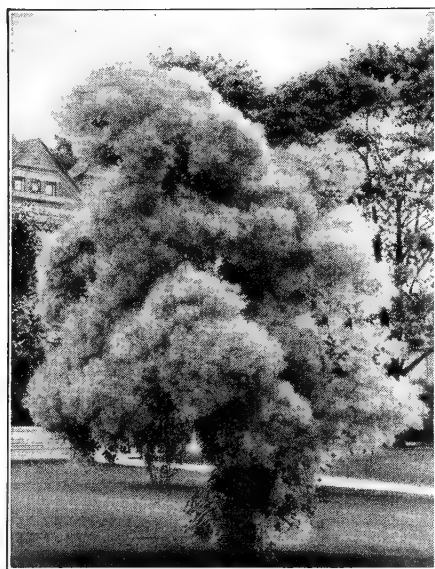

Lovely flowering shrub or small tree, growing about 15 feet tall, with spreading branches. The leaves are broad, the 3 to 5 lobes much toothed. Its flowers are a brilliant rosy red, double, in large clusters and produced in immense quantities. The fruits are scarlet. Well suited for the small yard, where a maple would be too large and create too much shade. **Price: 4-5 ft., \$3.00 each.**

Rose Tree of China (Prunus triloba)

The bright pink flowers stud every twig and branchlet in the spring before the leaves come out. The most popular of the early blooming shrubs. It will ultimately reach a height of 10 feet. Blooms in May. **3 to 4 ft., \$1.50 each.**

PURPLE FRINGE or Smoke Tree

A tree much admired for its curious fringe or hairlike flowers that cover the whole surface of the plant in midsummer. It creates an effect of mystic clouds entirely covering the plant. Handsome foliage adds its share of beauty to the plant. Likes plenty of sunshine and light, well drained soil. Grows to a height of 10 to 12 feet, and its spreading habit requires considerable space. Especially desirable as a specimen tree. **2-3 ft., \$1.50 each.**

The Towering LOMBARDY POPLAR

Also Good for Wind Screens

Tall, fast growing, spirelike tree. Adapted to wide range of soils. Everybody knows the striking appearance of this tall, narrow-growing tree, like a church spire. Fine for screens and background. Grows rapidly. You have always wanted some of these unusual trees.

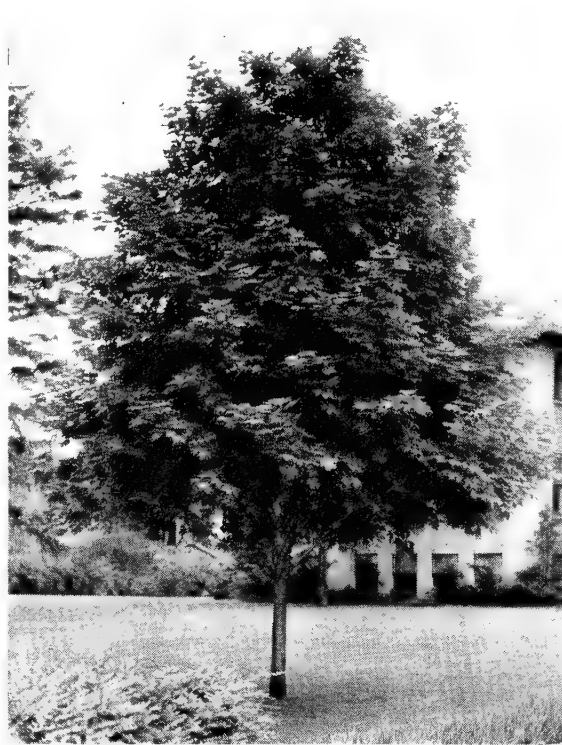

4 to 5 ft., windbreak size, 65c each; \$5.50 for 10; \$40.00 for 100. 5 to 6 ft., specimen size, \$1.00 each; \$7.50 for 10; \$50.00 for 100. 6 to 8 ft. size, \$1.25 each; \$9.95 for 10; \$65.00 for 100.

Shade Trees...

The Long-Time Favorites for
LAWN and STREET Planting

Ginkgo Has great vigor, growing from 60 to 70 feet high. In form, it varies from tightly pyramidal to wide spread irregularity. It is always fresh and green and in autumn, a cloud of gold. The leaves of this tree are fan-shaped and the branches are nearly parallel. Does well in any soil. A very picturesque tree. **5 to 6 ft., \$4.50 each.**

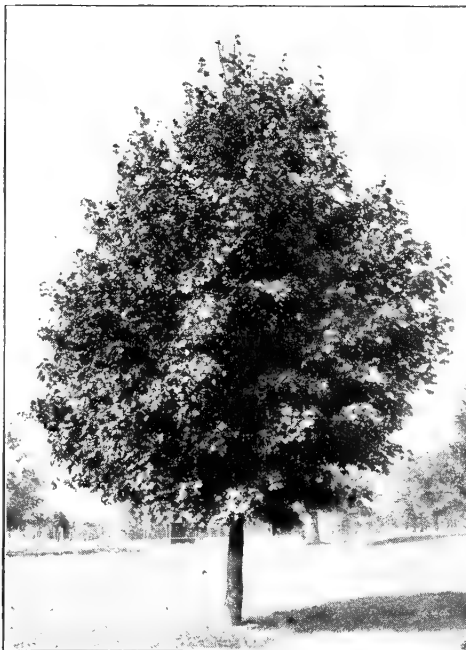

Scarlet Maple (*Acer rubrum*)

Also called Swamp Maple. Its scarlet flowers come before the leaves and as a landscape feature have few rivals in March and earliest April. Leaves are 3- to 5-lobed, 2½ to 4 inches long. They turn red and yellow in the fall, although in summer the leaves are dark, lustrous green above and grayish beneath. As a street tree it is set 38 to 40 feet apart. Will grow in swamps and wet soil, but also found growing successfully on dry hillsides. It is tolerant of shade. Height at maturity 40 to 50 feet. **6 to 8 ft., \$4.50 each.**

Silver Maple Most rapid grower of all Maples. A large, spreading tree which, at maturity, has a height from 60 to 70 feet. A cut leaf with a silvery cast, and also a silvery bark. Sap is good for sugar making. **5-6 ft., \$2.00 each; 6 to 8 ft., \$2.50 each.**

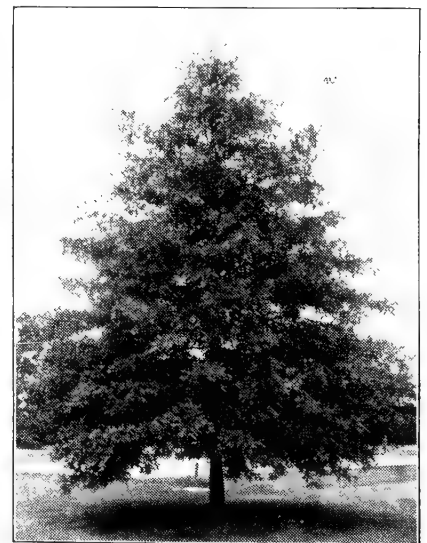

Norway Maple Used on many of our streets, as well liked for its pleasing and familiar symmetrical, dome-shaped head and ability to grow under city conditions. Its dense leaves are rich green in color, held on the tree longer in the fall than most Maples without much change in color. A good tree for street or lawn specimen planting where good form and shade are needed. Reaches a height of 60 feet. **6 to 8 ft., \$3.50 each.**

Sugar Maple (Hard Maple). This is the tree that has such beautiful scarlet, orange and yellow foliage in the fall. It is native to many sections and is the source of the delectable Maple Sugar. Develops into one of the grandest of all trees. **6 to 8 ft., \$3.50 each.**

Stately PIN OAK

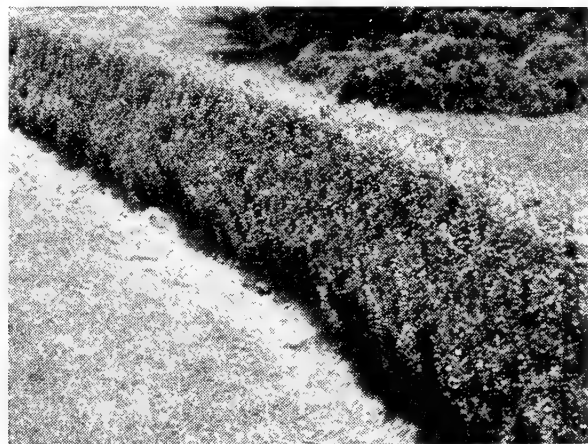

For an artistic, attractive shade tree, it is one of the fastest growing of the Oak family. The foliage is rich green, deeply cut, glossy copper in late fall. Generally disease and insect free. At maturity stands 30 to 40 ft. Grows in a symmetrical pyramidal form. **6 to 8 ft. trees, \$4.50 each.**

HEDGE PLANTS *for every type of planting*

Healthy... Well-Rooted... Priced Right

Barberry Hedge Unsheared

Sheared Barberry

BARBERRY THUNBERGI

Best all-purpose hedge of marked excellence because of its bright green foliage, changing to brilliant colors in the fall. Has bright scarlet berries throughout the winter. Dwarf and regular spreading in habit. Grows well in shade, used extensively in landscape work. Very hardy and has never been known to winter-kill. It bears and shears well and makes a dense hedge.

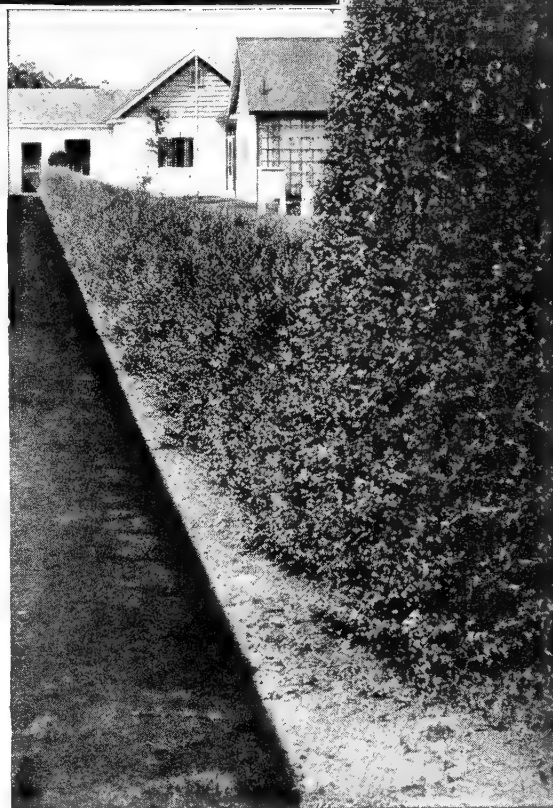

**15 to 18 in., 45c each;
\$4.00 for 10; \$35.00 for 100**

**18 to 24 in., 55c each;
\$5.00 for 10; \$45.00 for 100**

RED-LEAF BARBERRY

Very popular for specimen grouping and for edging taller plantings of shrubs or evergreens. Glossy purplish red leaves. Makes a brilliant, colorful hedge.

**12 to 18 in., Hedge Size,
\$4.00 for 10; \$35.00 for 100**

CHINESE ELM For Any Size Hedge

Extremely Hardy—Rapid Grower

This is America's fastest growing hedge, making a good showing in just a few months. It is the first to leaf out in the spring and one of the last to shed in late fall. You can trim to any desired height from 3 to 10 feet, as a hedge or tall screen. The more you trim it the more dense and compact it becomes. We recommend that after planting, you cut off nearly all the top, leaving only 3 to 4 inches above ground. Plant 8 inches apart.

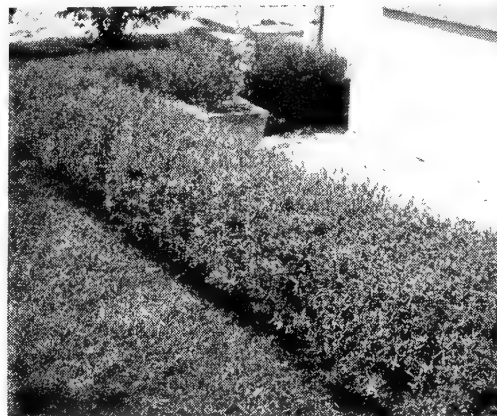

Postpaid	12 for	25 for	50 for	100 for

2 to 3 ft.	1.25	2.25	4.25	8.25

Amur-River PRIVET

Hardy Everywhere

Best for northeastern conditions. Will grow 10 feet in height, but may be pruned to any height and sheared to desired form. Branches are upright, foliage oval or oblong; can be made very dense by pruning. Resembles California Privet in growth. Very hardy and almost an evergreen, holding its green leaves almost all winter.

**12 to 18 in., \$1.50 for 10;
\$6.50 for 50; \$12.00 for 100**
**18 to 24 in., \$1.80 for 10;
\$8.50 for 50; \$16.00 for 100**

The Effective BLUE LEAF HEDGE

A new, charming, silvery blue-green shrub. Grows anywhere, in sun or shade, dry, wet or heavy soils where other plants perish. If left untrimmed, its feathery, willowy foliage makes a beautiful, compact, dwarf hedge 3 feet high and 2 feet wide. If trimmed it makes a colorful, low, formal hedge. Just the thing for low edgings, around beds or along walks. Single specimens are delightful in rock gardens. **10 for \$3.95; 50 for \$16.95; 100 for \$30.00.**

Kelly's

CLIMBING VINES

Add Beauty on Trellis or Porch

SILVERLACE VINE

(Fleece Flower)

The delicate fleece-like flower resembles the finest white lace. Blooms heavily from midsummer until fall. Grows about 20 feet the first season.

\$1.00 each

2 for \$1.90

BOSTON IVY VINES

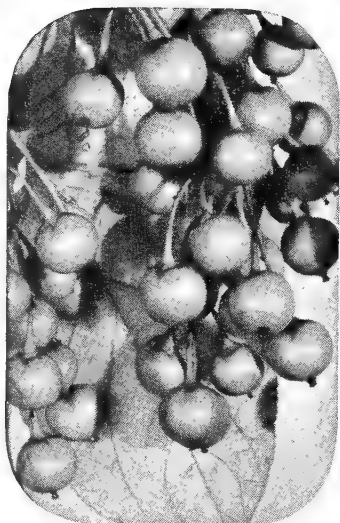

A vigorous climber that seems to thrive even under smoky city conditions. Bears a rich mass of dark green foliage. It will cling to almost any surface and its rich autumn color makes it most desirable for planting.

75c each

3 for \$2.10

Hardy Boston Ivy Vines Turn Bright Red in Fall

Bittersweet Berries

BITTERSWEET

(Celastrus Scandens)

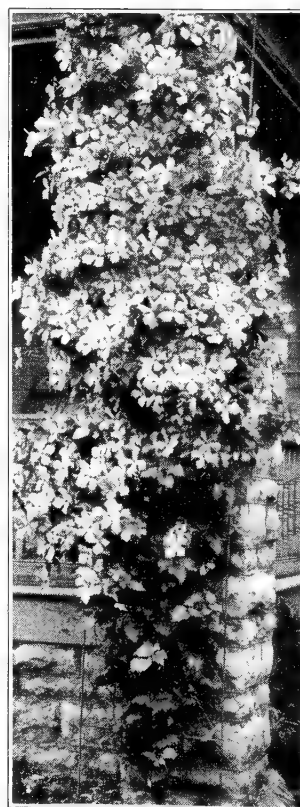

An old-fashioned winter bouquet variety. Common on the public markets around Thanksgiving time. Large clusters of orange and crimson berries are in great demand.

75c each; 3 for \$2.00

DUTCHMAN'S PIPE

(Aristolochia Siphon)

The curious brownish pipe-shaped flowers are a delight to children, and the large heart-shaped leaves make a dense screen. Few vines are better adapted to porches or pergolas. Grafted plants, **\$1.75 each.**

Clematis Jackmani

THE LARGE FLOWERING CLEMATIS

JACKMANI. Rapid grower. Large, single, purple flower. **\$1.25 each; 2 for \$2.25.**

MME. EDOUARD ANDRE. Velvety red color. From July to September. **\$1.25 each; 2 for \$2.25.**

Longcluster WISTERIA, PURPLE

Heavy clusters of purple blooms look like giant bunches of purple Grapes hanging from the vine. Blooms in May and June. Grafted plants. Sure to bloom.

\$1.25 each

2 for \$2.35

TRUMPET VINE

(Bignonia Radicans)

An old favorite that will stand most severe climatic conditions. Clings to any rough surface. Long, trumpet-shaped, brilliant orange-red.

60c each; 3 for \$1.65

The Living Fence

ROSA MULTIFLORA

**Controls Erosion • Provides Wild Life Refuge
Adds Beauty to the Landscape**

A LIVING FENCE. A tall growing, very thorny shrub, like the Wild Rose. Very hardy even in poor soil. Grows 2 to 3 feet in a single season to an ultimate height of 6 to 8 feet. Ideal for use as living fence for farm use—keeps in cattle, horses, sheep and goats. Makes fast growing ground cover. Pinkish white blossoms literally cover the plant in June. These are followed by profusion of large red berries which attract game birds such as grouse, pheasant, and partridge, as well as smaller birds. During winter its arching branches hold the snow and ice to provide protection which often means the difference between life and death to wild birds. Plant 1 ft. apart.

We offer **ROSA MULTIFLORA JAPONICA**, thorny type, conservation size, 15-18 in., \$6.95 per 100; \$17.50 per 250; \$25.00 per 500; \$40.00 per 1000.

Bank and Foundation Covers

Provide a natural effect where grass will not grow

PACHYSANDRA TERMINALIS

(Japanese Spurge)

**EVERGREEN
GROUND COVER**

The most popular of evergreen ground covers. It spreads rapidly, giving a finished look to an underplanting. Since it thrives in the shade, it is especially useful under dense shade trees where grass will not survive. Also good for a steep bank when mowing is difficult. Very useful as a combined ground cover and root protector when planted under Rhododendrons, Azaleas, and Laurels. Pachysandra puts the finishing touch to a foundation planting. Plant 4 or more to 1 square foot.

100 for	8.00
1000 for	50.00

CREeping HONEY- SUCKLE

**HALL'S
HONEYSUCKLE
VINE**

Trumpet-shaped flowers of white and gold are very fragrant and remain during the entire summer, until killed by early winter freezes. The foliage remains green during the winter where it has protection of snow or mulch. An excellent ground cover for steep banks. Will also climb on trellis or tree trunk. The fruit is yellow. Very showy against green leaves in the winter. Often grows to a length of 10 to 15 feet.

SPIRAEA VAN HOUTTEI

form the bush into a thing of beauty. This most popular Spiraea develops into a 4 to 6 ft. shrub, which may be used for specimen planting or for a hedge. It increases in beauty each successive season. Should be included in all plantings. **55c each; 3 for \$1.50; 10 for \$4.50; 50 for \$20.00.**

Spiraea Van Houttei
As an Individual Shrub

Probably the best known of all the shrubs. Will tolerate shade and adverse city conditions. Grow in any soil. The pure white flowers which completely cover the arching branches in May, trans-

The Common Lilac of America

The living landmarks; hardy and vigorous in any soil or climate, growing 6 to 8 feet tall. Large clusters on Decoration Day, very fragrant. Offered in both Purple and White. State color desired. **75c each; 3 for \$2.10.**

Deutzia PRIDE OF ROCHESTER

Vigorous, upright, hardy and free blooming. Small, white, Carnation-like flowers, changing to red in center. Grows 5 to 6 feet at maturity. **75c each; 3 for \$2.10.**

Sweet Scented Viburnum

This grand shrub is generally called the Pink Snowball. In the spring it is covered from top to bottom with very fragrant flowers that are light pink on the outside and the inside snowy white. It makes a nicely shaped bush, 5 to 6 feet tall and just as wide, with branches right down to the ground. The deep green foliage colors a bronzy red in the fall. Is planted from coast to coast. It adds beauty and distinction to your planting. **18 to 24 in., \$2.95 each.**

Oak-Leaf Hydrangea

Hardy in the North. Flowers are pinkish white, turning purple, appearing in June. The leaves are 3 to 5-lobed, whitish, woolly beneath. Height at maturity 6 to 8 ft. **95c each; 3 for \$2.75.**

New Beauty to Lawn or Garden

Pink Bells of Weigela

WEIGELA ROSEA

June and July finds this perfectly formed, well rounded shrub a mass of light pink blossoms, which possess a great depth of color. Under favorable conditions it will continue to blossom until stopped by frost. The average ultimate height is 4 to 6 ft. **75c each; 3 for \$2.10.**

Spiraea Thunbergi

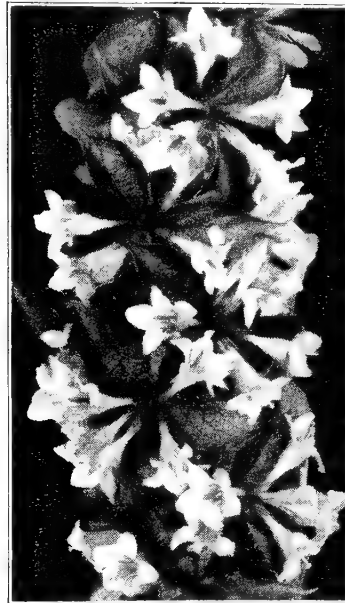

A medium growing shrub from 3 to 4 feet. In late April its white flowers cover up the very soft, tiny leaves and give the effect of a white waterfall. **75c each; 3 for \$2.10.**

RED TWIG DOGWOOD

(*Cornus alba sibirica*)

A spreading shrub with bright red bark in the winter, which adds a burst of color to your shrubbery in the winter. In summer it has bright green foliage, creamy white flowers in the spring, followed by whitish berries. Grows 6 to 7 feet tall. **75c each; 3 for \$2.10.**

American Popular SNOWBALL

(*Viburnum opulus sterile*)

There are few June-flowering shrubs which can match the rare beauty of the pure white flowers arranged in perfectly round "snowballs" 3 to 4 inches across. It's a stately, erect grower dressed in beautiful rich green foliage. Makes a handsome 6 to 8-ft. specimen. **85c each; 3 for \$2.45.**

COTONEASTER DIVARICATA

(Spreading)

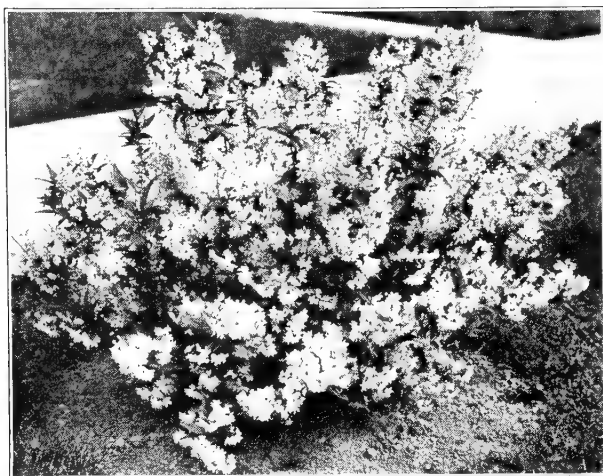

Is upright in growth, though the branches are spreading. The leaves are pointed, glossy green above, lighter below, turn red in autumn. The flowers are pink and appear in June. The fruit is oblong, ripening in August and September, and stays red for a long period. Grows 3-5 ft. **90c each; 2 for \$1.75.**

A Grand Shrub for Shady Places

Hills of Snow Hydrangea

This easy growing shrub thrives everywhere and never fails to put on a display of showy, pure white, Snowball-like flowers. Grows approximately 3 feet tall. **75c each; 3 for \$2.10.**

Plant Kelly's Flowering Shrubs for Colorful

Deutzia Gracilis

Deutzia Gracilis

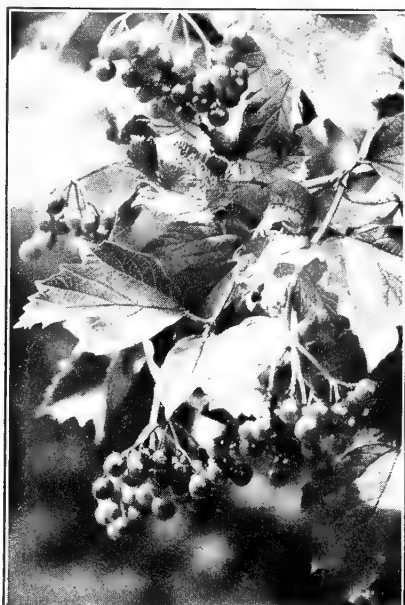

A charming little "must" for every garden. Slender twigs covered with white flowers in May and June. Generally attains a height of 3 feet when fully matured. **Price: 85c each; 3 for \$2.45.**

Althea Coelestis

Bright Morning-Glory-blue flowers, 3 inches across, pop open every day from midsummer until winter. Pretty Pansy-red centers and white pistils. Fine for cutting. Fancy green leaves. Grows 4 to 5 feet tall. **Price: 75c each; 3 for \$2.10.**

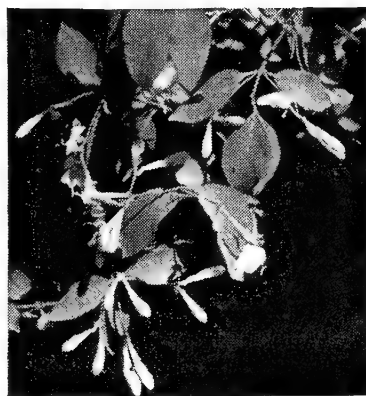

Althea

High Bush Cranberry

High Bush Cranberry

Here's a handsome background shrub with attractive bright red berries that make a delicious, pleasantly tart jelly. Grows to 6 or 7 feet with slender, graceful drooping branches. Has attractive single white flowers in May or June. The large clusters of scarlet berries will stay on into the winter. Berries can be used alone or in combination with other fruits. Beautiful, bright green foliage turns to rich red in autumn. **\$1.00 each; 3 for \$2.75.**

Honeysuckle

Blue Leaf Honeysuckle Bush

(Korolkowi)

This is without doubt one of the best large shrubs. It makes a magnificent bush 8 to 10 feet tall and almost as wide. The foliage is very attractive blue-green. In the spring it has lovely rose colored flowers, followed by clusters of bright red berries. It is attractive spring, summer, fall and winter. Birds are very fond of the berries. **90c each; 3 for \$2.55.**

Variegated Leaf Dogwood

No flowering shrub has ever possessed such a complete measure of attractiveness throughout the year as this rare variegated variety. Its white and green leaves, striking red bark, unusual white flowers in early June and the light blue berries which follow, combine to provide magnificent color harmony during spring, summer, fall and winter. Reaches a height of 6 to 8 feet, and will grow and thrive under almost any conditions. **\$1.50 each; 2 for \$2.85.**

Golden Syringa

(Philadelphus Aurea)

Always a "showy" shrub because of its all-season golden yellow foliage. Flowers are intensely white, with a fragrance which is delightful, more delicate, yet as penetrating in the garden as that of the Jasmine. Grows to a height of 4 to 5 feet, and is not fussy about location—doing well in smoky or dusty places. **Price: \$1.50 each; 2 for \$2.85.**

Variegated Dogwood

Golden Syringa

Modern Landscaping

Variegated Weigela

An attractive shrub of spreading growth, attaining a height of 4 to 5 feet. Flowers are pale pink, trumpet-shaped, blooming in June. Foliage is a handsome green, edged with creamy white. **85c each; 2 for \$1.60.**

Althea, Rose of Sharon

A hardy 6- to 8-foot shrub, with shamrock-green leaves, forming a backdrop for double, Roselike flowers. A most welcome sight in the fall.

4 Colors:

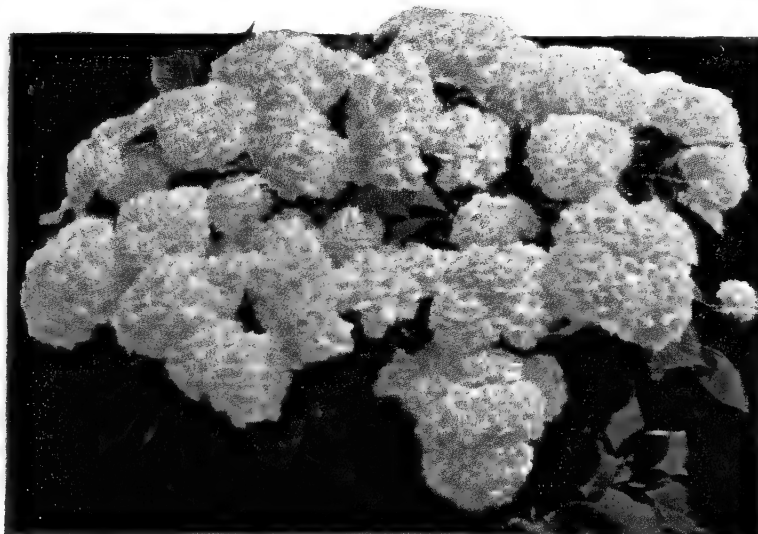

Pink Red
Purple White
75c each; 3 for \$2.10.

*Ambler, Pa.,
Oct. 10, 1950*

Gentlemen:

As a former customer, I am sending you another order. I have tried half a dozen nurseries and have whittled the number down to you and one other as the most reliable.

*Sincerely,
Philip D. Nordell*

Blue Hydrangea

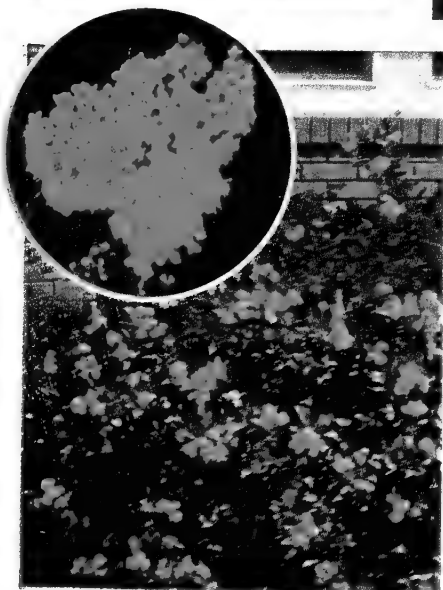

Blooms of charming blue throughout the summer. Most preferred of all Hydrangeas, due to its form and color. Soil should be very acid to bring out the blue color. To maintain soil acidity, mix 4 or 5 table-spoons of Aluminum Sulphate to a gallon of water, and apply to the soil for 2 to 3 weeks during the growing season. Aluminum Sulphate is listed on page 21. Grows in partial or full shade. Mound earth up around plant 10 or 12 inches for winter protection, same as for Roses. A real novelty. **Price: \$1.50 each; 2 for \$2.75.**

Red Spiraea

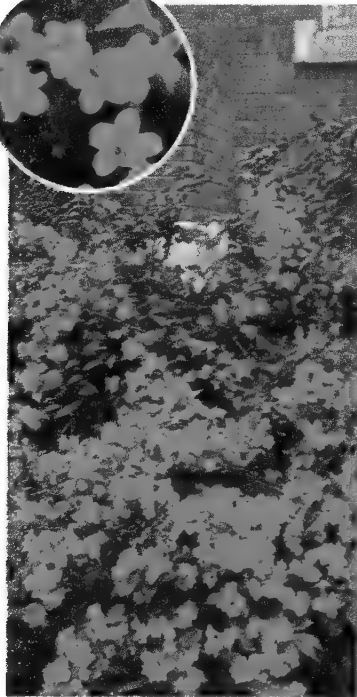

A choice, low growing shrub, distinctive in style and form. It produces masses of showy, bright crimson flower clusters in July, and if the old blooms are cut away, it will continue to bloom until frost. Nice for specimen planting as well as in groups. Ultimate height 18 to 24 inches. **Price: 85c each; 3 for \$2.45.**

Gold Flame Honeysuckle

From June until freezing, this magnificent vine is covered with showy clusters of large, fragrant flowers, rosy-flame outside and gold inside. The attractive foliage, a rich blue-green, makes a perfect background for the brilliant flowers. Hardy, healthy, easy-to-grow, it thrives North, South, East and West, in full sun or partial shade. It can be used in so many places—trellis, porch, pergola, fence, fine for covering bank or cave or can be trained as a shrub. **Price: 85c each; 3 for \$2.40.**

Kelly's

WEIGELA Eva Rathke

Famous for its scarlet, trumpet-shaped blooms and for its hardiness. Growing 3 to 5 feet high, it blooms heavily in June and moderately during the rest of the season. **Price: 85c each; 3 for \$2.45.**

SNOWBERRY

*Waxy Berries
in Fall*

Small, pink flowers in June or July. Waxy white berries from August until spring. Attractive, dense foliage, and the berries attract the birds. Grows under most adverse conditions to 4 feet high. **Price: 75c each; 3 for \$2.10.**

*Chester, N. Y.
Oct. 26, 1950*

Gentlemen:

The shrubs were delivered Oct. 23rd and promptly set out. They were even nicer plants than we had expected—good healthy shrubs and larger than we had expected. We had the places all prepared for them, and had to dig holes considerably deeper. Thank you.

*Yours very truly,
Mrs. Harlo J. Fiske*

The Exotic BLUE MIST Shrub

(Caryopteris)

One of the best low-growing, fall-blooming shrubs. It makes a neat, compact, rounded bush about 2 feet tall, with narrow, silvery green foliage. From August to frost, it is covered with the many clusters of dainty blue flowers. The roots are hardy, but like a Peony bush, you cut off, each spring, the old canes and new ones come up. You are sure to like this shrub. **90c each; 3 for \$2.55.**

HYDRANGEA PEEGEE

A tall, stately shrub growing to 4 feet in height. Branches bending over with giant cone-shaped flowers which are white at first, then pink and late in fall turning to copper and bronze. When cut, they last for weeks inside. **Price: 75c each; 3 for \$2.10.**

*All
Kelly
Shrubs

Size*

EUONYMUS ALATUS COMPACTUS

(Burning Bush)

Yellow flowers in May-June, followed by red fruits. In autumn the leaves turn brilliant coppery-crimson tinged rose. Has an unusual corky bark. Thrives in partial shade or full sun. Perfectly hardy, makes a compact bushy plant 4 to 5 feet wide. Not particular as to soil. Very ornamental and attracts attention spring, summer, fall and winter. **Price: \$1.50 each; 2 for \$2.75.**

EVERGREEN BITTERSWEET (*Euonymus radicans vegetus*)

A wonderful berried vine. Can also be used as a shrub or colorful hedge.

Will climb brick or wood, or can be planted as a hedge. Makes an excellent shrub when pruned and does well in a northern exposure. Extremely hardy.

Price: \$1.00 each; 2 for \$1.90.

Golden Bells FORSYTHIA

The natural grace of the slender, drooping branches filled with charming bright golden yellow, bell-shaped blossoms is a treat in early spring. There is no more beautiful shrub in its season. An upright shrub, 7 feet tall. Branches may be cut in late winter, brought indoors and forced into bloom.

Price: 75c each; 3 for \$2.10.

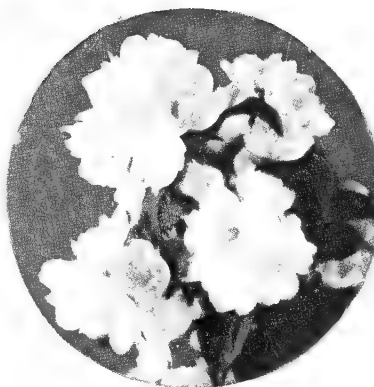

**All Kelly Shrubs
Are Healthy
18-24 in. and
2-3 ft.
Blooming Size.**

VITEX

The Distinctive Lavender Shrub

A 4-foot, dainty shrub of branching habit, which bears long spikes of lavender-blue flowers, forming a beautiful contrast to the silvery green foliage in August and September. **Price: 85c each; 3 for \$2.45.**

[45]

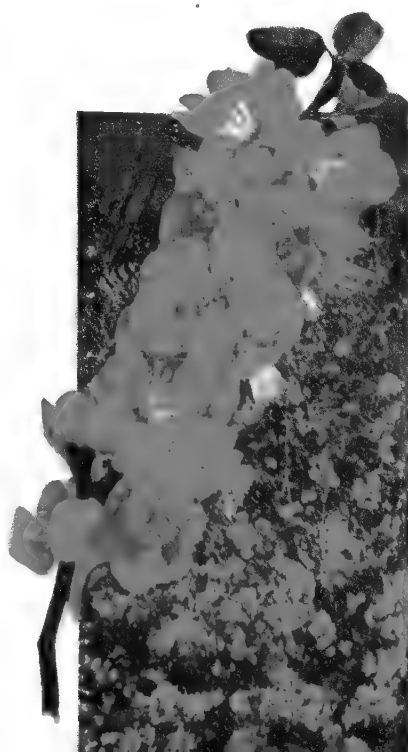

DOUBLE MOCK ORANGE

May and June finds the long slender erect branches heavily laden with lovely, pure white, sweet-scented double 2-inch flowers. Will tolerate smoke and other hard city conditions. Grows to an ultimate height of 4 to 6 ft. **Price: 85c each; 3 for \$2.45.**

RED BARBERRY—Red Foliage

Very charming all season with its flattering bronze-red foliage. Adds that spot of color needed to brighten up the landscape. Must be planted in a sunny location to maintain its rich red coloring. Grows naturally to a height of 3 feet, but may be pruned to any size or shape desired. **Price: 75c each; 3 for \$2.10.**

SCARLET QUINCE The Fire Bush

A first choice for rich, happy spring color for both indoor and outdoor beauty. Covered with masses of semi-double, brilliant scarlet flowers, even before the attractive shiny green leaves appear. Quince-shaped, fragrant fruit which makes excellent jelly and marmalade follows and adds to the attractiveness of this 3- to 5-ft. "must" in landscaping. **Price: 75c each; 3 for \$2.10.**

Buy Shrubs Direct From The Grower...

SWEET HONEYSUCKLE

Attracts the Birds

Dainty, small, pink, trumpet-shaped flowers in May, followed by a profusion of red berries. Makes a large shrub, 6 to 8 feet both in height and width. Excellent for screening and specimen planting. Grows in the poorest soil. **Price: 75c each; 3 for \$2.10.**

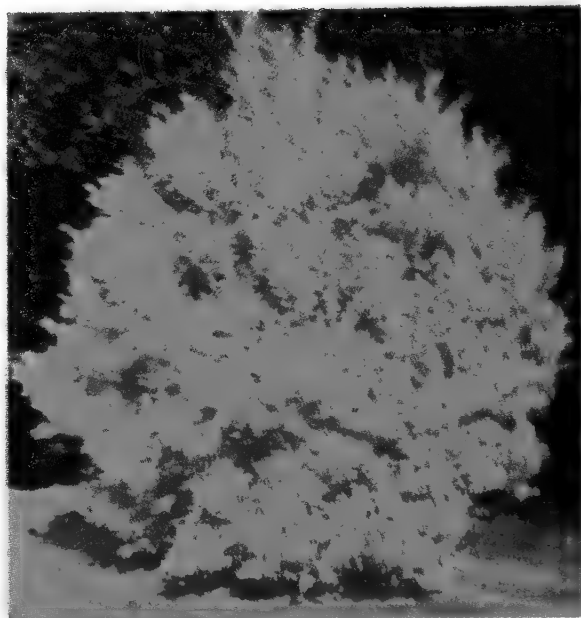

CALYCANTHUS

(Sweet-Scented Shrub)

Many know it as the Carolina Allspice. The handsome, bronze-chocolate flowers produced in June are most entrancing, because of their spicy fragrance. Odd looking pods develop later which are filled with brown, aromatic seeds. Glossy corrugated foliage adds to its unusual appearance. Grows 4 to 5 feet tall, and spreads over an area equally broad. **Price: 75c each; 3 for \$2.10.**

GOLDEN PRIVET

Adds That "Bit of Color" to Every Planting

A striking shrub, growing to a height of 4 to 6 feet, but can be trimmed to any desired height or shape. Bright yellow foliage, making it a fine specimen or as a color accent in the shrub border. We offer especially bushy plants. **Price: 85c each; 3 for \$2.45.**

BEAUTY BUSH - Kolkwitzia

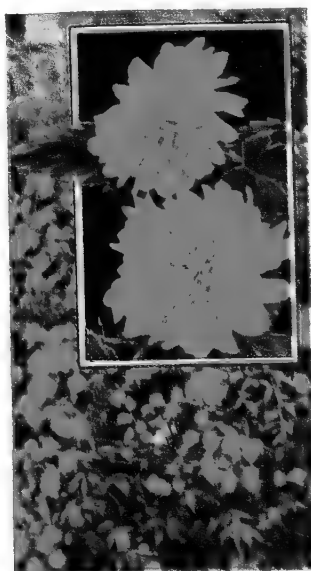

A Wealth of Loveliness for Little Cost

This is another very fine long-lived shrub. In spring, the graceful arching branches are covered with lovely pink blossoms. The bush is very shapely and attractive. It grows 6 to 8 feet tall. Use it in group plantings or as a specimen. **Price: 95c each; 3 for \$2.70.**

Plants.

IT PAYS

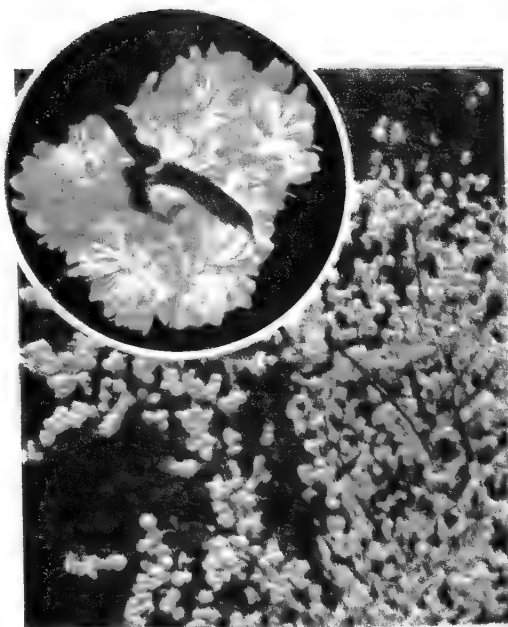

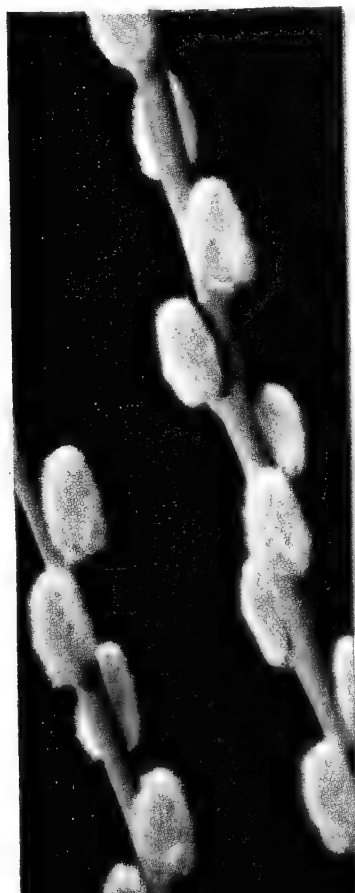

Double GOLDEN KERRIA

The Globe Flower

Very slender, 3- to 4-ft. shrub with light green limbs, covered with Buttercup-like blooms of bright orange in July. **Price: 75c each; 3 for \$2.10.**

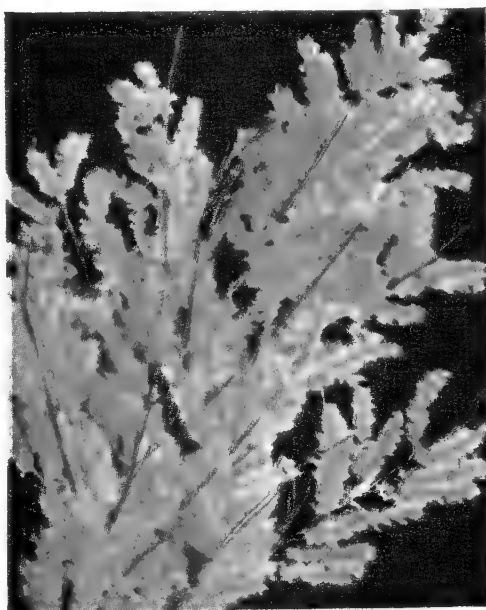

French PUSSY WILLOW

No bouquet would be complete in early spring without a few sprays of Pussy Willows. Grows 10 to 12 feet high. Catkins are at least twice as large as those of the common Willow. **Price: 95c each.**

PINK FLOWERING ALMOND

A charming, old-fashioned early spring flowering shrub, growing to a height of 4 feet. Unsurpassed in beauty when completely covered with a mass of very double, vivid pink blossoms, which appear in great profusion before the leaves unfold. **Price: 75c each; 3 for \$2.10.**

The Feathery TAMARIX

Beautiful, silvery, blue-green, Heather-like foliage envelopes this tall growing, 8- to 12-ft. flowering shrub like a veil. In May and June a delightful contrast is displayed in the long, plumelike, bright pink flower spikes which appear aloft from the foliage. These plumes may be cut.

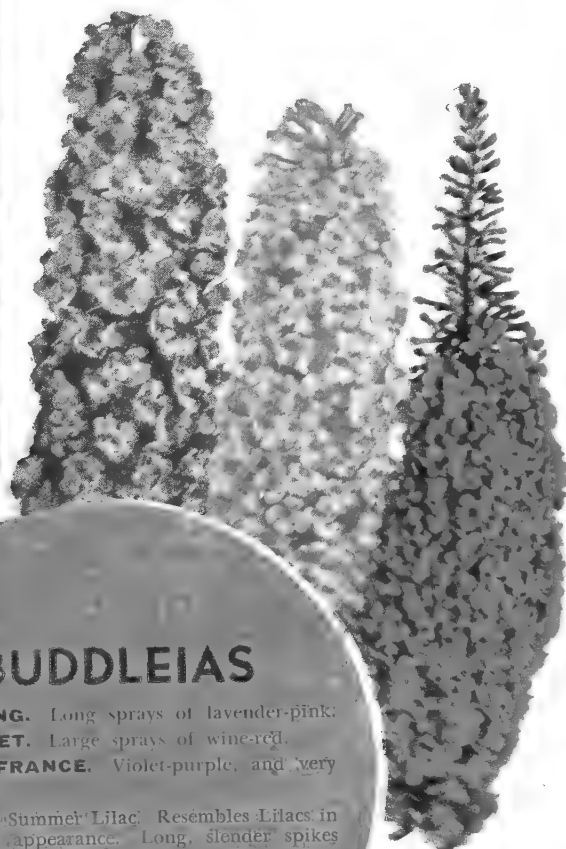

**Each 75c
3 for \$2.10**

CORALBERRY

Indian Currant

A 3- to 4-ft. shrub with delicate, little, pink flowers against a reddish green foliage, followed by coral colored berries that remain most of the winter. Keep birds near, with abundance of these berries. **Price: 75c each; 3 for \$2.10.**

BUDDLEIAS

CHARMING. Long sprays of lavender-pink;
DUBONNET. Large sprays of wine-red;
ILE DE FRANCE. Violet-purple, and very fragrant

The late-Summer 'Lilac'. Resembles Lilacs in shape and appearance. Long, slender spikes through late summer and fall. Plants grow 4 to 5 feet tall.

**Each 75c
3 for \$2.10**

Salem, N. Y.
July 1, 1950

Dear Sirs:

Having purchased Mrs. Kelly's collection of Roses, I want you to know how lovely they are. They were the finest Rose bushes I ever purchased, and I've had hundreds of them.

Yours very truly,
Mrs. Ralph Stafford

Kelly's HEAVY FLOWERING Climbing Roses

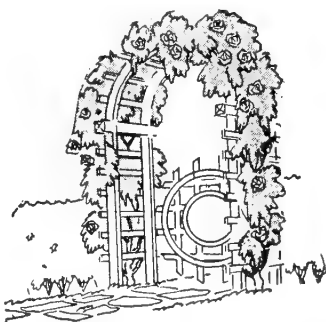

Kelly's Climbing Roses produce an abundance of bloom all summer long. Plant them on a trellis or a fence. We offer below five of the leading varieties in a good color selection.

CLIMBING AMERICAN BEAUTY. (Pink.) Blooms extra large, resembling Tea Roses in shape and size. Color, deep pink. Long blooming season. An old favorite Climbing Rose. Very hardy. **\$1.00 each; 3 for \$2.75.**

NEW DAWN. (Pink.) Perfect Hybrid-Tea-like blooms all season of apple-blossom-pink, and a delicate appealing old rose fragrance. Superb for use in bouquets and arrangements. Fine long stems. **\$1.00 each; 3 for \$2.75.**

CITY OF YORK. (White.) Several weeks in late spring and early summer, vigorous plant is covered with hundreds of snow-white flowers. Very fragrant. Recurrent blooms in summer and fall.

\$1.00 each; 3 for \$2.75.

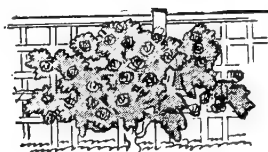

Covering an Archway

PAUL'S SCARLET. (Red.) Brilliant scarlet flowers, large and last over a long period. Greatest of the hardy climbers. Makes a brilliant showing. **\$1.00 each; 3 for \$2.75.**

PRIMROSE. (Yellow.) Rich golden yellow. Very prolific bloomer. Dark green foliage. **\$1.00 each; 3 for \$2.75.**

SPECIAL ROSE ARBOR COLLECTION

1 Paul's Scarlet
1 Blaze
1 City of York **Only \$2.75**

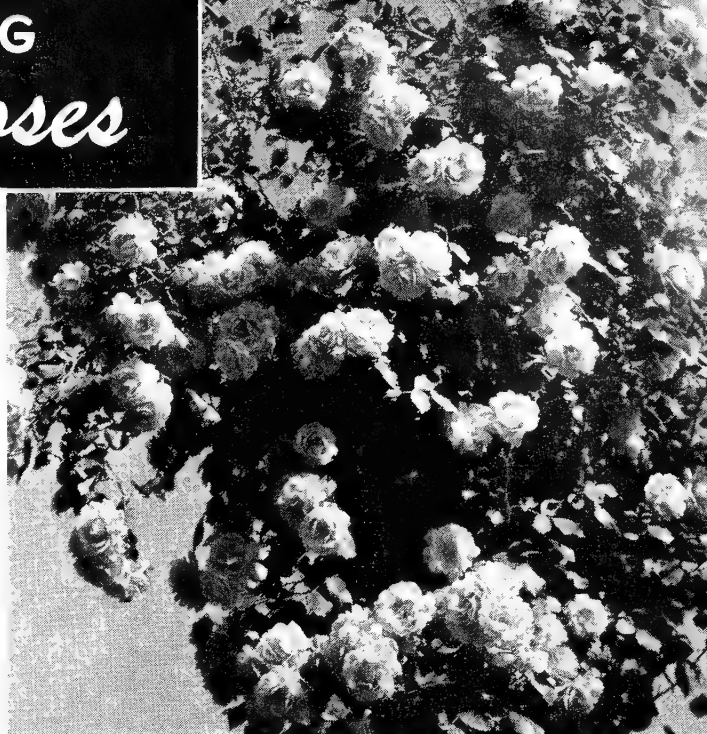

To Cover a Fence

BLAZE CLIMBING ROSE

(Red)

Plant Patent 10.

Grows in true pillar form. Blooms early, followed by repeat blooms throughout the summer and fall season. Plants hardy, bright green foliage and sturdy canes. Color is intermediate scarlet and does not fade readily. **\$1.25 each; 3 for \$3.25.**

The Famous Paul's Scarlet Climbing Rose

Dwarf Baby or Polyantha Roses

For continuous color you can't beat Kelly's Floribunda or Dwarf Roses. Blooming in generous clusters from June right through the summer until frost, they give your garden a truly breath-taking display, because of their unusually free blooms. May be used for a border along walks or any planting. They require very little care, other than an occasional spraying and fertilizing to keep them healthy and luxuriant.

ELSE POULSEN. A good tall grower. The single blooms are about 2 inches in diameter, two-tone, pink and silvery pink. Continuous bloomer. A good cutting variety. **\$1.00 each; 3 for \$2.75.**

FLORADORA. A new variety producing a mass of attractive orangy red flowers in large clusters. The striking color of the double blooms is indeed captivating. **\$1.00 each; 3 for \$2.75.**

IMPROVED LAFAYETTE. Large, double, crimson-red blooms are interspersed with the abundant deep green foliage. Grows 2 to 2½ ft. high. **\$1.00 each; 3 for \$2.75.**

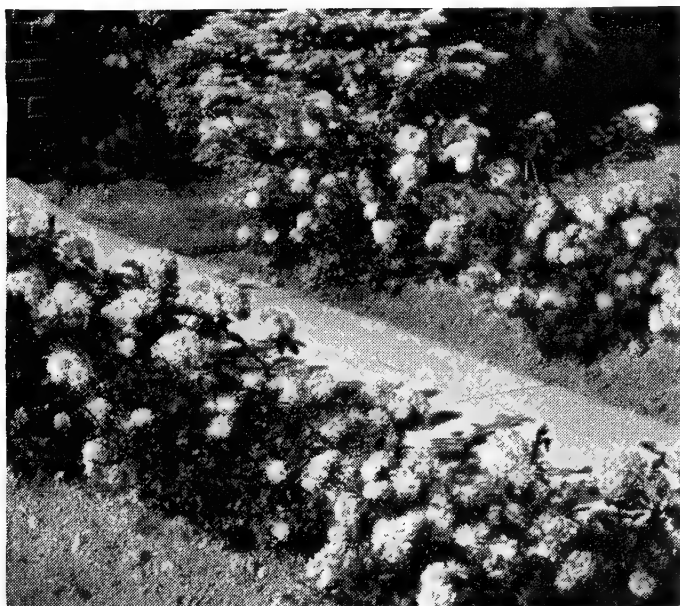

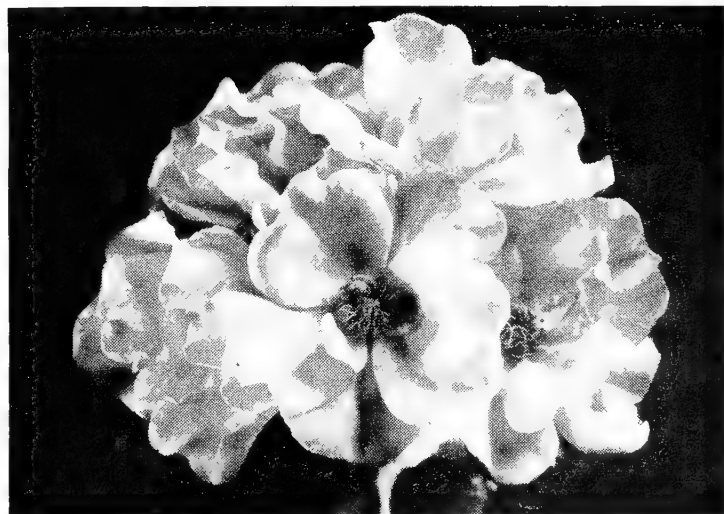

RED RIPPLES. A vivid, clear, true red in both bud and bloom. Wavy petalled flowers produced in great masses; bloom until other Roses are gone. Strong, vigorous, healthy plants. Makes a sensational hedge. **\$1.00 each; 3 for \$2.75.**

GOLDEN SALMON. Large clusters of bright salmon-orange. A very striking color in any garden. Attracts immediate attention. **\$1.00 each; 3 for \$2.75.**

Special Floribunda Collection

Else Poulsen

EVERGREENS

Strong Sturdy Plants - Best Varieties

The Deep Rich Tones Enhance the Beauty of Your Summer Garden and Furnish Winter's Cheer

Distinctive, luxuriant, colorful varieties for planting AVERAGE HOMES.
ECONOMY SIZE—Sure to Grow into Beauty. All our small and medium size evergreens are shipped with roots packed in peat or moss as a protective feature.

JUNIPER

ANDORRA (Purple Spreading). It is low and spreading, seldom reaching more than 15 to 18 inches in height, but spreading out for a considerable distance. Grayish green in summer, tips of branches pinkish in fall and winter. **9-12 in., heavy transplants, \$1.25 each; 2 for \$2.40.**

GLAUCA HETZI. A spreading type, resembling Pfitzer, but more rapid in growth; decidedly blue, stands shearing well, and is a dense grower. **10-15 in., heavy transplants, \$1.50 each; 2 for \$2.90.**

SPRUCE

COLORADO BLUE SPRUCE (*Picea pungens glauca*). Very popular because of its color, which is more pronounced during the late spring and summer months. Excellent for specimen planting. **8-10 in. transplants, \$1.50 each; 2 for \$2.90.**

BOXWOOD

BOXWOOD. Can be used for dwarf evergreen hedges and garden outlines. Hardy, but in extreme northern sections should be given some winter protection. For close hedges plant 6 to 8 inches apart. For bed outlining plant 1 foot apart. Will reach 2 to 3 feet high, unless severely sheared and kept low. **6-8 in. transplants, \$1.25 each; 2 for \$2.40.**

TAXUS - Yew

TAXUS HICKSI (Hicks' Yew). A narrow, upright Taxus with vertical branches; rich, deep foliage. **12-18 in., heavy transplants, \$1.50 each; 2 for \$2.90.**

TAXUS CAPITATA

(Upright Japanese Yew). The normal habit of this Yew is a pyramidal form, broad at the base and tapering to the top of the tree. A rapid growing tree, so can be trimmed back at least twice during the summer. **12-18 in. transplants, \$2.25 each; 2 for \$4.25.**

TAXUS CUSPIDATA (Spreading Japanese Yew). Rich, dark green foliage with numerous crimson berries in the fall. Does well in sunny and northern exposures. Fine for foundation plantings. **12-18 in., heavy transplants, \$1.50 each; 2 for \$2.90.**

AMERICAN ARBOR-VITAE

(*Thuja occidentalis*). The mother tree of all Arbor-vitae. Grows bushy at the bottom, tapering toward the top. Foliage is flat, arranged in sprays of lacy dark green. **12-15 in. transplants, \$1.50 each; 2 for \$2.90.**

PYRAMIDAL

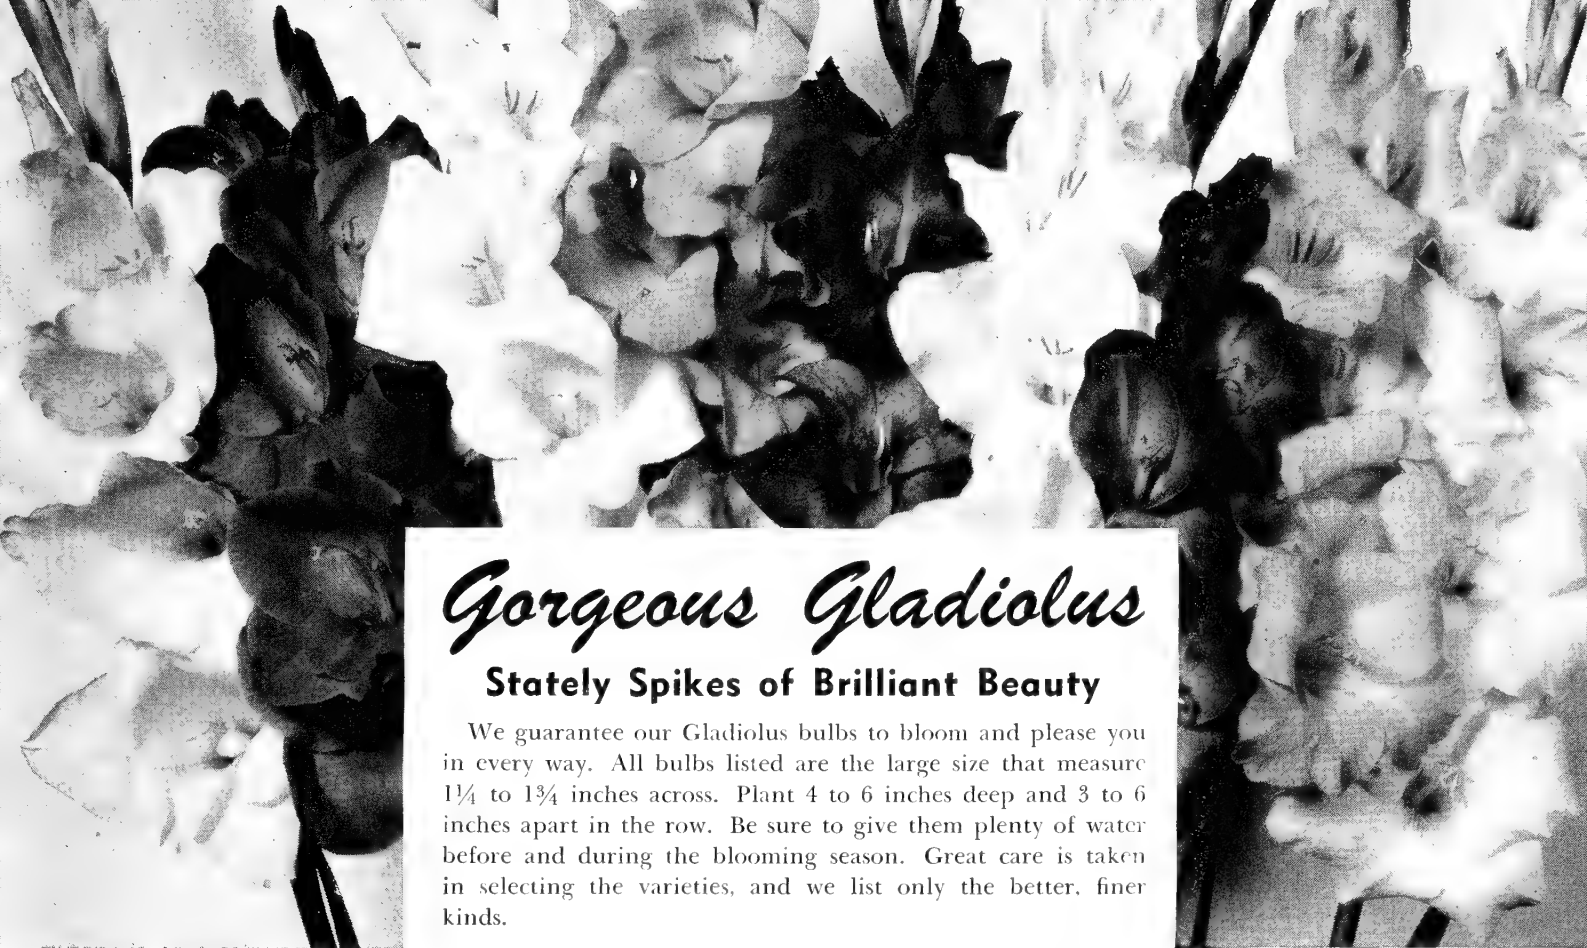

(*Thuja occidentalis pyramidalis*). Undoubtedly the most popular form of Arbor-vitae today. This tree fills a real need in landscaping and has a place of importance in practically every evergreen planting. Thrives best in a south or east exposure. **12-18 in., heavy transplants, \$2.00 each; 2 for \$3.90.**

PFITZER (*Juniperus chinensis Pfitzeriana*). A very hardy dwarf Evergreen with spreading branches. Fine ornamental Evergreen for informal plantings. **10-15 in., heavy transplants, \$1.50 each; 2 for \$2.90.**

GLOBE (*Thuja occidentalis globosa*). A globe-shaped Arbor-vitae, which does not require pruning to retain its shape. Dwarf in habit. **8-10 in., heavy transplants, \$1.25 each 2 for \$2.40.**

Gorgeous Gladiolus

Stately Spikes of Brilliant Beauty

We guarantee our Gladiolus bulbs to bloom and please you in every way. All bulbs listed are the large size that measure 1¼ to 1¾ inches across. Plant 4 to 6 inches deep and 3 to 6 inches apart in the row. Be sure to give them plenty of water before and during the blooming season. Great care is taken in selecting the varieties, and we list only the better, finer kinds.

GLADS OF DISTINCTION

12 large size bulbs\$1.45
24 large size bulbs 2.75
48 large size bulbs 5.25

Your choice of varieties, but not less than three of 1 variety.

ABU HASSAN. Dark violet-blue. Large flowers, straight strong stems. A very popular variety.

BURMA (The King of the Rose-Reds). Sensational large deep rose, shading to lighter throat. Very heavily ruffled. Always attracts attention.

DUSTY MILLER. A smoky old rose, mildly blotched white with cream pencilling. Always straight and a vigorous grower.

GOLDEN ARROW. Pure light yellow with no markings.

MARGARET WOOD. Deep wine colored. Blooms up to 7 inches in diameter. Straight, average height, healthy in foliage and bulb.

ROSE CHARM. Early cut, flower rose. Long, tapering flower head with stem that does not crook. The clean, sweet color attracts attention and keeps it.

SILVER WINGS. This Picardy sport is whiter than Leading Lady and is becoming very popular. It is a clean color and the florets individually are beautiful.

TRUE LOVE. Good commercial sort; early. Clean pink. 22-inch flower head. Height 48 inches. A good grower with a well-balanced spike.

Baroness Schroeder
Karl Rosenfield

From Holland
AZALEA MOLLIS
Fine Bushy Plants

Their flowers are lovely and add so much to any planting. We have imported these from Holland. Large blossoms, blooming in early spring. Fine bushy plants, about a foot tall.

They prefer part shade, and do best in a soil mixed half and half with Peat Moss. The roots are very close to the surface, so a Peat Moss mulch should be kept around the plants after setting out. Keep well watered.

We offer them in the following colors:

Red

Orange

Yellow

\$2.00 each; 3 for \$5.25.

Cushion-Mum

PRODUCE BUSHELS OF BLOOMS

A Sensational Creation of the Flower Kingdom

One of the most popular garden favorites. Plant these beautiful flowers 2 to 2½ feet apart in well-drained soil. They do well in full sun or partial shade. Our Cushion Mums are hardy and will bloom from late August up to the time of severe frosts.

BRONZE CUSHION. A large round plant if planted alone with hundreds of blossoms on at the same time. Requires little care, and is one of the prettiest ones of the Cushion Mums.

PINK CUSHION. It's the oldest one of the Cushion Mums, but one of the best. Makes a very large plant by early fall, loaded with blooms, often hiding all leaves when fully in bloom. It's a sight in early September till late fall.

RED CUSHION. Blossoms are fiery red color that blends in well with the others. It has been known to have 500 blooms and some buds on 5 months after set out. Starts to bloom in September and continues until freezing weather.

YELLOW CUSHION. A bright yellow and blooms earlier than other colors. A thousand blooms open at one time on a well cared for plant is a common sight. Every one likes a yellow Mum.

60c each; 3 for \$1.75; 6 for \$3.00, postpaid.

Kelly's Colorful FRENCH LILACS

Plant Early This Spring For Next Summer's Bloom

You are sure to enjoy these beautiful French Hybrid Lilacs. All double flowering varieties that will last a lifetime. You get a wealth of sweetly perfumed blossoms the first year after planting, and they will bloom every year. We highly recommend the varieties listed.

BLUE (Marc Micheli). Soft blue-violet in large clusters. A great favorite.

WHITE (Mme. Casimir Perier). Very large, compact clusters of purest white.

WINE-RED (Charles Joly). Its narrow, upright habit of growth is adapted to the smaller garden where space is limited.

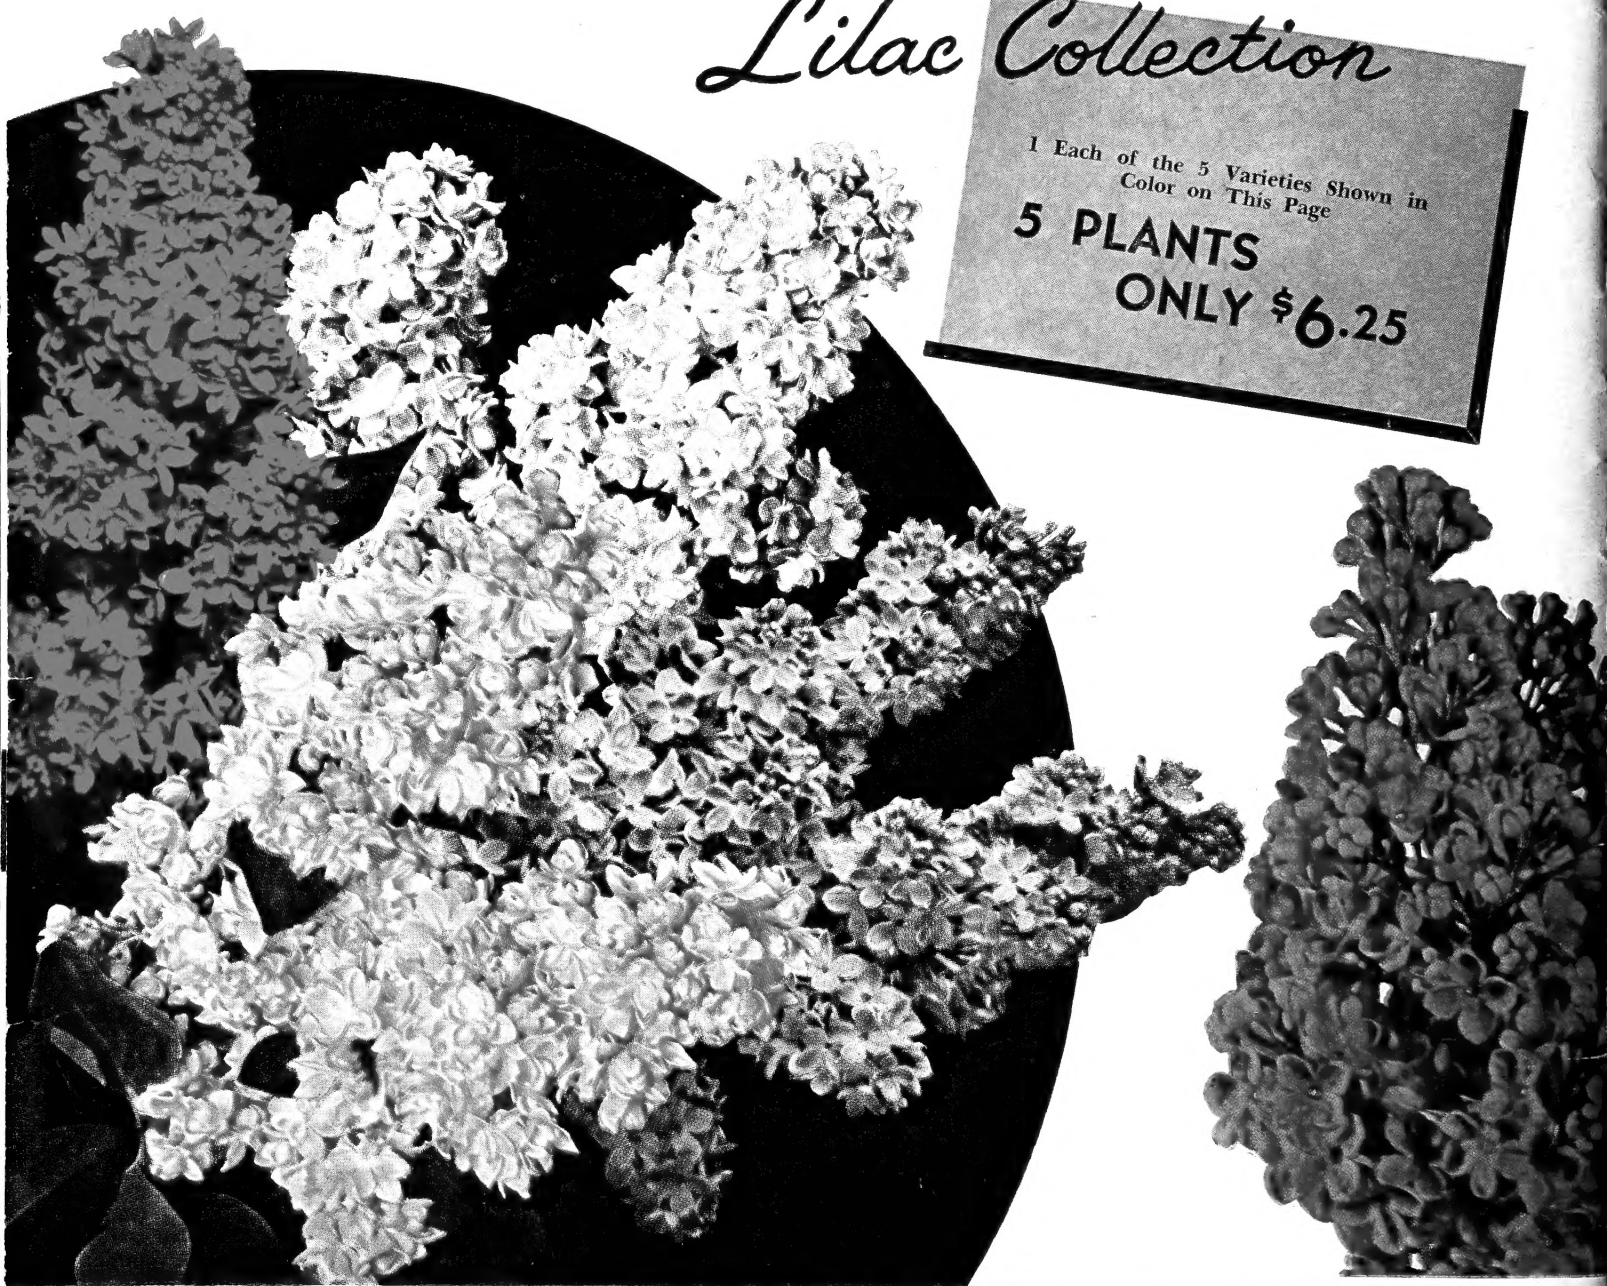

PINK (Katharine Havemeyer). A gorgeous mass of double flowers, very full with immense spikes.

LAVENDER (Michel Buchner). Midseason. Bluish lilac.
3-year, 18-24 inch plants, \$1.50 each; 3 for \$4.25.
